ACKNOWLEDGEMENT

I take this opportunity to express my reverence and deep sense of indebtedness to my guide Dr. Sandip Kumar Bandyopadhyay, Senior Lecturer of Department of Biochemistry and Biophysics. Dr. B.C.Roy Post Graduate Institute of Basic Medical Sciences, University College of Medicine, University of Calcutta, for his invaluable help and guidance which he extended to me in carrying out the thesis work. This work would not have been much material but for his zest and zeal, inspiration, encouragement and expertise.

I am greatful to Professor Sasanka Shekhar Chakraborty, Dr. Basudev Bhattacharya, Dr. Hirendranath Dutta and Dr. Ajoy Kumar Sharma of the Department of Biochemistry and Biophysics of University College of Medicine, Calcutta.

I am indebted to Professor Biswapati Mukherjee of the Department of Pharmacology, University College of Medicine, Calcutta and Dr (Mrs) Anita Pakrashi of the Department of Biochemistry and Biophysics, University College of Medicine, whose valuable suggestions and guidance have inspired and motivated me to complete this onerous task.

I extend my deepest sense of gratitude and respect to Dr. Tuhin Kanti Biswas, Mr Babul Banerjee and Mr. Arun Roy for their help and inspiration.

Thanks are also due to the teachers and staffs of the Department of Biochemistry(Sc), University of Calcutta and Indian Institute of Chemical Biology, Calcutta for permitting me to use their laboratory and instrument facilities.

I acknowledge my thanks to all the authors of various books and journals which I have consulted in course of preparing this thesis.

Last but not the least, I am thankful the Mr Deben Chowdhury who took pain in typing the whole manuscript with skill, reliability and conscientious.

Dated: NEENA KUMARI
