ACKNOWLEDGEMENT

The present investigation was carried out at the Department of Physiology, University College of Science and Technology, University of Calcutta. I take this opportunity to thank the Department for providing me all the infrastructural and library facilities necessary for this endeavour.

I express my sincere gratitude and infinite indebtedness to my respected teacher Prof. Debjani Guha, M.Sc., Ph.D., Nagendra Nath Das Professor of Neurophysiology, S. N. Pradhan Centre for Neurosciences, University of Calcutta and formerly Reader, Department of Physiology, University of Calcutta, for helping me in carrying out this research work. I am extremely grateful for her valuable advice, continuous encouragement throughout the course of the study and unfailing patience without which the completion of this work would not have been possible.

I am also grateful to Prof. P. K. Debnath, Professor of kayachikitsha (Internal Medicine), J. B. Ray State Ayurvedic Hospital for his continuous encouragement.

I extend my sincere thanks and gratefulness to Miss. Rimi Hazra who had helped me profoundly during my experimental works as well as during the preparation and correction of the manuscript. She had been a constant source of encouragement especially during the rough times.

My sincere gratefulness and thanks are also extended to Mr. Kaushik Ray who had contributed his time and toil towards helping me in my experiments, statistical calculations as well as for the preparation and correction of the manuscript.

My gratitude is due to Dr. Biswarup Sarkar, Lecturer, Midnapur College, Dr. Nita Sarkar, and Dr. Partha Chakrabarty for their valuable advice and wise suggestions during the initial phase of my work.

I also thank Mr. Sentu Sarkar and Miss. Sudeshna Das, my junior lab mates.

My sincere thanks is extended to the libraries of Department of Physiology, Calcutta University; Indian Institute of Chemical Biology, Kolkata; Bose Institute, Kolkata; Chittaranjan
National Cancer Institute Kolkata and National Institute of Mental Health and Neurosciences, Bangalore for allowing me to avail their rich reference stocks.

I express my gratitude and thanks to my parents and other members of the family for their interest and constant encouragement during the course of my work.

I must also take this opportunity to thank Mr. Srikanta Basak, Mr. Bikash Das and Mr. Milay Das and Mr. Manas Bhattacharya for their help in preparation of the photographic plates and the final printing of the thesis.

University of Calcutta had provided me with the University Research Fellowship [No. UGC/1356/Fellow (UNIV) dt. 16.11.98] for carrying out this research work. I greatly acknowledge their support.
