# CONTENTS

(1) Acknowledgements. ........................................ 3
(2) The Overture ........................................ 4

PART I: STUDIES ON ENERGY COST OF VARIOUS ACTIVITIES
PERFORMED BY THE COLLEGE STUDENTS. .................. 8

(3) The Prologue ........................................ 9
(4) The Synopsis of Findings ................................ 10
(5) The Retrospection ...................................... 14
(6) The experiment ........................................ 17
(7) Tables with Connotations:
    No. 1 Age, Height, Weight, body surface area
    and vital capacity. ..................................... 21
    Nos. 2 to 4 B.M.R. .................................... 23
    Nos. 5 to 6 Lying Rest activity ....................... 30
    Nos. 7 to 8 Sitting - Rest activity ................... 34
    Nos. 9 to 10 Standing Rest Activity .................. 38
    Nos. 11 to 12 Sitting Reading activity ............... 42
    Nos. 13 to 14 Sitting Writing Activity ............... 46
    Nos. 15 to 16 Standing Laboratory work in
    Practical Class ......................................... 50
    Nos. 17 to 19 Walking activity ....................... 54
Nos. 20 to 22 Descending stairs activity.

Nos. 23 to 25 Ascending stairs activity.

No. 26A Showing the percentage of increase in the Cost of energy in different activities from B.M.R. Level & Fig.I & Fig.II.

Nos. 26 Comparative Chart of Activities.

(8) A comparative study of Energy costs (Activitywise) with others.

(9) General discussion on total work.

(10) The Summary.

(11) The Epilogue.

(12) Appendix.

Table No.26A Average Daily cost of energy with Connotations.

Table Nos.27 to 46 Individual record of time spent.

Table No. 47 With Connotations.

Table No.48 with Fig.III.

Table No.48A Proportionate Energy Cost.

Table Nos.49 to 68 Individual Record of Energy Cost.

(13) References.
PART II: STUDIES ON METABOLIC INTERRELATIONSHIP OF THIAMIN, RIBOFLAVIN AND ACID NICOTINIC IN HUMANS.

(14) Preamble. ... 1

(15) The synopsis of Findings. ... 4

(16) Glimpses of the last background work. ... 7

(17) Short notes on B Vitamins:
(a) Their Isolation.
(b) Their Biochemistry &
(c) Structural Formulae.

(18) The experiment. ... 19

(19) The Principle & Methods of Vitamin Estimation:
(a) Thiamin. ... 25
(b) Riboflavin. ... 28
(c) Acid Nicotinic. ... 30
(d) N' MN (n' Methyl Nicotinamide). ... 33

(20) Results:
(a) Table No.I: Basal Excretion and Discussion. 35
(b) Table No.II: Thiamin supplementation. ... 41
