ACKNOWLEDGEMENT

I am greatly indebted to Dr. Thilagavathy Daniel, Head, Department of Biology, Gandhigram Rural Institute., Gandhigram, for her guidance, suggestions and encouragement, which contributed to the successful completion of this research. But for her enlightenment, vision and understanding this thesis would not have materialized. I thank her.

I am extremely grateful to Dr. Samuel Paul Raj, Co-ordinator and Head, Department of Natural Resources and Waste Recycling, School of Energy, Environment and Natural Resources, Madurai Kamaraj University, Madurai, for his valuable suggestions and continuous encouragement.

I am thankful to Gandhigram Rural Institute for providing me with an Institute fellowship to carry out the research work.

I thank the staff, the research scholars and the technicians of Department of Biology Gandhigram Rural Institute and my friends for their help and co-operation.

I thank the Tamil Nadu State Fisheries Department Personnel, Jederpalayam, Namakkal District, for their timely supply of experimental animals and their co-operation.

I thank the Dean, Fisheries College, Tuticorin and the Director CMFRI, Cochin, for permitting me to use their library facilities. I also thank Dr. V. Sundararajan, Dr. J. Stephen Sampath Kumar and Dr. Santhanam, Fisheries College Tuticorin for their timely help and guidance.
My sincere thanks to Dr. M.A. Jeyaraju, Professor of English, Gandhigram Rural Institute, for going through the manuscript.

I am greatly indebted to M. Govindaraju and G. Nagalakshmi my parents and my family for their support, sacrifice and encouragement throughout the course of this study.
