### DETAILED TABLE OF CONTENTS

- List of Tables and Illustrative Materials: vii
- Acknowledgements: xii
- List of Abbreviations: xiii

#### Chapter 1: Introduction

1.1 Introductory note: 1
1.2 Area and location: 1
1.3 Objectives of the present study: 2
1.4 Database and limitations: 2
1.5 Methodology: 3
1.6 Previous literature: 3
1.7 Geomorphic and economic relationship with adjacent areas: 4

#### Chapter 2: General Geographical Appraisal Of The Study Area

2.1 Geological set-up: 6
2.1.1 Introduction: 6
2.1.2 Geolithology: 7
2.1.3 Structure: 9
2.1.4 Landscape features: 10
2.2 Slope: 11
2.3 Hydrological Set-up: 11
2.3.1 Surface drainage: 11
2.3.2 Ground Water: 12
2.4 Climatic Condition
2.4.1 Factors influencing climate
2.4.1.1 Location
2.4.1.2 Monsoonal influence
2.4.1.3 Vicinity of the Plateau
2.4.1.4 Seasonality
2.4.2 Climate parameters
2.4.2.1 Temperature
2.4.2.2 Rainfall
2.4.2.3 Humidity
2.4.2.4 Wind
2.4.2.5 Storms
2.4.2.6 Evaporation
2.5 Vegetation
2.6 Soil
2.6.1 Introduction
2.6.2 Soil types
2.6.3 Soil series association
2.7 Demographic aspects

Chapter 3 : Land Use Analysis
3.1 Introduction
3.2 Characteristics of land use.
3.3 Types of land use.

Chapter 4 : Geomorphic Surfaces
4.1 Divisions of Geomorphic surfaces
4.2 Brief description of geomorphic surfaces
4.3 Broad characteristics and existing land use on geomorphic surfaces

Chapter 5 : Landform Land Use Relation
5.1 Introduction
5.2 Methods applied
5.2.1 Correlation
5.2.2 Regression
5.3 Correlation
5.3.1 Graphical presentation and interpretation
5.4 Regression
5.4.1 First case
Chapter 6: Environmental Problems

6.1. Introduction

6.2. Soil degradation
   6.2.1 Types of soil degradation
   6.2.2 Soil erosion
      6.2.2.1 Causes of soil erosion
      6.2.2.2 Areas of soil erosion
   6.2.3 Soil contamination
   6.2.4 Soil salinization
   6.2.5 Reduction of soil recharging capacity

6.3. Subsidence
   6.3.1 Introduction
   6.3.2 Genesis of the problem: a peep into the past
   6.3.3 Magnitude of the problem
   6.3.4 Impact of subsidence

6.4. Underground fire
   6.4.1 Introduction
   6.4.2 Causes of underground fire
   6.4.3 Occurrence and location of underground fire
   6.4.4 Impact of underground fire

6.5. Solid waste
   6.5.1 Introduction
   6.5.2 Impact of waste heaps

6.6. Disrupted hydrology
   6.6.1 Introduction
   6.6.2 Need of ground water exploration
   6.6.3 Present state of ground water
   6.6.4 Pollution in surface water and underground water
      6.6.4.1 Disruption in hydrological cycle
      6.6.4.2 Contamination of surface and underground water
6.6.5 Impact of disrupted hydrology 69
6.7 Air pollution 71
6.7.1 Introduction 71
6.7.2 Categories of air pollution 71
6.7.2.1 Air pollution 71
6.7.2.1.1 Introduction 71
6.7.2.1.2 Important issues related to air pollution by mining activity. 72
6.7.2.2 Noise Pollution 74
6.7.3 Impact of air pollution 74

6.8 Deforestation 76
6.8.1 Introduction 76
6.8.2 Impact of deforestation 77

6.9 Increase in population 78

Chapter 7: Land Use Management 80
7.1 Introduction 80
7.2 Afforestation 81
7.2.1 Introduction 81
7.2.2 Steps to be taken 81
7.2.2.1 Major steps to be taken 81
7.2.2.2 Details of the steps to be taken 81
7.3 Plan for controlling subsidence and utilisation of subsided areas 84
7.3.1 Introduction 84
7.3.2 Recommendations 84
7.4 Plan for controlling underground fire and utilisation of land with underground fire 87
7.4.1 Introduction 87
7.4.2 Measures to control underground fires 87
7.4.3 Proposed methods for controlling fire 88
7.5 Plan for utilising waste heaps 89
7.6 Better utilisation of water 91
7.6.1 Introduction 91
7.6.2 Recommendations for the improvement of hydrological condition 91
7.6.3 Recommendations of Asansol Durgapur Development Authority (A.D.D.A.) 93
Chapter 8: Environmental Vulnerability of Raniganj Police Station and Viability of Mangalpur Satellite Township - A Case Study.

8.1 Introduction

8.2 Problems in Raniganj Police Station
8.2.1 Raniganj, its urban character
8.2.2 Economic activities and occupational pattern
8.2.3 Mining hazards and related issues
8.2.4 Infrastructural problems
8.2.5 Population congestion
8.2.6 Valuation of land

8.3 The growth of new satellite township
8.3.1 Location aspect of the proposed township: present location
8.3.2 Regional importance of location of the township
8.3.3 Land use plan for the township
8.3.4 Brief outline of the project
8.3.5 Human response to the satellite township

8.4 Viability of change in urban land use
8.4.1 Economic reflection
8.4.2 Environmental consideration
8.4.3 An analytical study

8.5 Conclusion

Chapter 9: Conclusion
