ACKNOWLEDGEMENT

I express my deepest gratitude to Prof. K. P. Sengupta, Professor, Division of Morbid Anatomy and Histology, Department of Pathology and Bacterology, Institute of Post Graduate Medical Education & Research, Calcutta, for his constant and painstaking guidance, generous help and encouragement, without which it would have been difficult to complete the present work.

I am extremely grateful to Prof. K. C. Basu Mallick, Director, Department of Pathology and Bacterology, Institute of Post Graduate Medical Education and Research, for allowing me all facilities in this department and for his constant and valuable advice.

I express my gratefulness to Prof. A. K. Basu, Director, Institute of Post Graduate Medical Education and Research, Surgeon Superintendent, S.S.K.M. Hospital, for allowing me all facilities to carry out my work in the institute.

I am grateful to Prof. B. P. Ghosh, Professor of Biochemistry of this Institute for his generous help and constructive criticisms.

I am greatly indebted to Dr. S. K. Biswas, Lecturer, Department of Pathology & Bacterology, Institute of Post Graduate Medical Education and Research, for his constant help in my work and constructive criticisms during writing of this thesis.
I am extremely grateful to Dr. N. C. Pal, Lecturer, Department of Pathology and Bacteriology, Institute of Post Graduate Medical Education & Research, for the help rendered to me in histopathological work and preparation of microphotographs.

I express my heartiest gratitude to Dr. S. K. Chatterjee, Dr. Provat Banerjee, Mr. P. Bose and Dr. S. Gupta Kaviraj of the Department of Radiotherapy, Medical College Hospitals, Calcutta for helping me to produce the X'radiation injury on the animals.

I also express my gratefulness to Prof. K. C. Sarbadhikary, the then Principal - Superintendent, Medical College Hospitals, Calcutta for permitting me to produce the radiation injury.

I express my deep gratitude to Dr. Ashok Gopal Dutta and to Dr. Satyesh Pakrashi, Institute of Experimental Medicine, Jadavpur, Calcutta for helping me to produce the ultraviolet injury.

I am also very much grateful to Dr. N. Narayanaswami, Institute of Experimental Medicine, Jadavpur, Calcutta for his constructive suggestions.

It is a pleasure to acknowledge the constant help rendered to me by Miss. Sefali Chakravarti and Dr. (Mrs) M. Bagchi during the course of the study.

I owe a deep debt of gratitude to Sri Niranjan Ganguly, Manash Bose, Ranjit Bose and Sri Ashoke Ganguly for their sincere and best help rendered to me in histopathological study.
I convey my heart-felt thanks to Dr. N.N. Sen, Dr. (Mrs) R. Sen, Dr. D. C. Mallick, Dr. J. Chatterjee, Dr. J. Mukherjee, Dr. (Mrs) M. Banerjee, Dr. (Mrs) G. Talukder, Dr. (Mrs) E. Ghosh, Dr. (Mrs) M. Dutta, Dr. (Mrs) G. Banerjee, Miss. Eva Sarkar, Mr. S. Cutta and Mr. H. Som, Mr. S. Biswas, Mr. Shyamapada Biswas and Mr. B. K. Chandra who have helped me in various ways, in the course of this study.

I must express my gratitude to Mr. D. P. Banerjee, Secretary, I.P.G.M.E & R., Mr. P. Bose, Librarian and Miss. P. Dutta of the Library of I.P.G.M.E. & R. for the constant help during this study.

I am indebted to my husband, Dr. M. K. Sanyal, who cheerfully undertook the tasks of all sorts of help needed to me in the preparation of this thesis.

Any success that the thesis may achieve will in a large degree, belong to all those I have named as well as to many others whose mention brevity excludes.
