ACKNOWLEDGEMENTS

I express my deepest sense of gratitude and appreciation to Dr. Chandicharan Deb, Professor of the Department of Physiology, Calcutta University, under whose guidance, this work was carried out and it is only due to his helpful criticism and suggestions throughout the period that this thesis could ultimately be put into the present form.

My thankful acknowledge to Dr. Rabindranath Sen, the present Head of the Department of Physiology, for providing me the laboratory facilities to continue the thesis work.

I would like to express my indebtedness to Dr. Narendra Mohan Biswas, Lecturer in Physiology, Calcutta University, for the helpful suggestions during the tenure of the present investigation.

I express my deep sense of gratitude to Dr. Kalyan Kumar Ghosh, Associate Professor of the Department of Biochemistry, I.P.G.M.E.R., for his co-operation during the course of this investigation.

I am indebted to Doctor Bibekananda Paul, Lecturer in Physiology, Calcutta Homoeopathic College, for encouragement and many illuminating discussion, during the progress of the work.

Acknowledgements are also due to my colleagues Dr. (Mrs.) Ratna Mukherjee, Dr. (Mrs.) Pranati Bagchi, Dr. (Mrs.) Gipsy
Majumdar, Mr. Phani Bhusan Patra, Mr. Sumantra Chanda, Mr. Alok Koley, Mr. Tarun Kumar Das, Mrs. Anuradha Biswas, Mrs. Ranja Majumdar, Mrs. Sukla Nag and Mr. Pradip Ghosh, Department of Physiology, Calcutta University, for their active co-operation.

I would like to express my indebtedness to my parents, my elder sister, younger brothers and my friends for their keen interest and encouragement during the tenure of the present investigation.

Further, I am also thankful to Mr. Ranjit Bhattacharya, the microphotographer, Mr. Lalchand Datta and Chandrasekhar Majumdar for their various assistances.

Lastly, I should name Kritibash Jana and Parsh Patra who helped me from time to time in various ways.

I am grateful to University Grants Commission (U.G.C.) for the award of a fellowship during this investigation and also to Organon Company (London) for the gift of Human Chorionic Gonadotrophin Hormone to me.
