Acknowledgements

I would like to put on record my gratitude and indebtedness to all those who contributed in diverse ways to making this thesis a reality, particularly to:

- the Electronics and Communication Sciences Unit (ECSU) and the National Centre for Knowledge Based Computing Systems & Technology (NCKBCST), the Indian Statistical Institute (ISI), for making a variety of resources available for this work, and for providing an environment congenial to research.

- Dr. Dwijesh K. Dutta Majumder, my supervisor, for the great interest he has always taken in my work and for his guidance and his constructive criticism.

- Dr. Sankar K. Pal, for having suggested this line of research in the first place, and for his constant encouragement, criticism and support.

- My friend and colleague, Dr. Amita Pal, for her invaluable help in the tedious task of preparation of the thesis.

- Dr. M. K. Kundu, for helping me procure the paper needed for the copies of the thesis and for valuable suggestions in preparing the manuscript.

- All colleagues at the Electronics and Communication Sciences Unit of the Indian Statistical Institute, notably, Ms Swati Chowdhury, Ms Ranju Saha, Ms Malati Chatterjee, Ms Susmita Mitra, Ms Maya De, for helping in various ways.

- Last but not the least, my family, for their patience and their support.
