The aim of the present study was “Sense of subjective well-being, self-esteem, coping style, psychiatric morbidity and adjustment of Orthopaedically handicapped youths and Rehabilitation Problems faced by them”. In this context, I convey my heartfelt thanks and gratitude to Professor Dr. Indrani Mukherjee my research supervisor who helped me untiringly, through this journey, with utmost loving and caring guidance.

My sincere thanks to Dr. Kiran Kumar Mukherjee of (Nilratan Sarkar Medical College) who made my work easier to collect data with easy access to the Institute. I also need to convey my thanks to Mr. Anirudha Palit (Bonhoogly, Kolkata) who also helped me to collect the data.

My heartfelt thanks are due to Professor A.K. Chatterjee, Department of Applied Psychology, Calcutta University and Dr. Saugata Bose, Reader of Department of Psychology, Calcutta University for their wise help about some of the analytical issues. I will be wrong if I forget to thank my Library staff at my parent department as well as those at National Institute for the Orthopaedically Handicapped who helped me each and every time for accessing books and Journals.

I hereby express my special thanks to Mr. Lokenath Ghosal of Momo Hut, Kolkata for preparing all figures and tables. I would like to thank my parents Mr. Ashok Ganguly and Mrs. Sabita Ganguly and Mr. Dipankar Mukherjee who encouraged me entirely to do the research work. My husband Subrata Mukherjee need special mention in this connection for his constant emotional support, encouragement and practical help in preparing the manuscript.

Lastly, my special thanks goes to employees at Dhar Bros. who took the responsibility for preparing the final form of this Thesis.
