ACKNOWLEDGEMENT

All praise, honour and glory to my LORD JESUS CHRIST for HIS richest grace, mercy, wisdom, guidance and for providing good health, knowledge and strength during the period of my research study and the accomplishment of this thesis. For the Word of God states, “I can do all things through Christ who strengthens me” (Philippians 4:13).

I would to express my deep appreciation and gratitude to the following people for helping me to complete this thesis.

I would like to acknowledge the unstinted support rendered by our founder of Karunya University Dr. Paul Dhinakaran through his prayers and by providing a chance to pursue my research work.

I would like to express my deep gratitude to the management of the Karunya University especially Dr. S. Sundar Manoharan, Vice Chancellor, Karunya University, Dr. M. J. Xavier, Pro Vice Chancellor, Karunya University and Dr. C. Joseph Kennady, Registrar, Karunya University for their inspiration and encouraging words.

I would like to express my sincere and heart-felt thanks to my research Supervisor Dr. B. Elavarasan, Assistant Professor, Department of Mathematics, School of Science and Humanities, Karunya University, Coimbatore, for his patient guidance, enthusiasm encouragement, motivation and valuable suggestion at every stage until the culmination of this research study. His willingness to spend his time so generously is worthy of appreciation. Without his continuous support and assistance it would not have been possible to finish this thesis.

My grateful thanks are extended to Dr. P. Thangavelu, Professor and Head, Department of Mathematics, School of Science and Humanities, Karunya University, Coimbatore, and Dr. J. Daphy Louis Lovenia, Professor and Director, Department of Mathematics, School of Science and Humanities, Karunya University, Coimbatore, for
their constant support, inspiration and encouragement.

I would like to extend my thanks to Dr. A. Hepzibah Christinal, Controller of Examination, Karunya University, for the help provided during this period.

I am also thankful to my doctoral committee members Dr. S. Vasanth kumar, Professor, Department of Chemistry, Karunya University and Dr. S. Vijayabalaji, Assistant Professor, Anna University, Panruti, for their valuable suggestions and new ideas.

My special thanks are extended to my friends and colleagues for their help and encouragement.

Finally, I would like to thanks my family members for their external support and understanding of my goals and aspirations. Their infallible love and support has always been my strength. Their patience and sacrifice will remain my inspiration throughout my life. Their prayers sustained me thus far. They cheered me up and stood by me through the good times and bad.

J. CATHERINE GRACE JOHN
