

6.38: Selling of Cotton According to Region in Gujarat	
6.39: Expectations about Market of Cotton according to Region	
6.40: Expectation on Price of Cotton Fibres According to Region	
6.41: Expectations from Government according to Region	
6.42: Experience After use of Bt seeds for cotton Production According to Region	
6.43: Production Of Cotton by Sample Farmers During Last Five Year (Kgs Per Acres) According To Region	
6.44: Practice of Cotton Storage According to Region	
6.45: Ownership of Land according to Land holding	
6.46: Years of Cotton Cultivation and Landholding	
6.47: Crops Undertaken by Farmers According to Different Land Holdings	
6.48: Reasons for Cultivation of Cotton Regularly According to Land Holding	
6.49: Number of Persons Dependent on Agriculture According to Land holding	
6.50: Other source of income according to Land Holding	
6.51: Time of Selling Cotton according to Land Holding	
6.52: Source of Buying Seed according to Land holding	
6.53: Buying Bt Cotton Seed according to Land holding	
6.54: Experience of Using Bt Cotton Seeds according to Land holding	
6.55: Mode of Selling Cotton according to Land holding	
6.56: Future market expectation of Cotton and Land Holding	
6.57: Expectations on price of cotton fibres and Land holding	
6.58: Expectations from Government for Better Earning in cotton cultivation according to Land Holding	
6.59: Average production of cotton (five years) and Land holding	
6.60: Storage of cotton according to land holding	
6.61: State wise Distribution of Spinning Mills	
6.62: Year of Commencement of Commercial Production by Spinning Mills	
6.63: Total no. of Spindles in Spinning Mills	
6.64: Cotton based Spinning Mills	
6.65: Per cent of Cotton Usage by Spinning Mills	
6.66: Variety of Cotton Used by Spinning Mills	
6.67: Using Bt Cotton per year	
6.68: Bt Cotton Usage In Terms of Per cent per year	
6.69: Bt Cotton Usage In Terms of Tons per year	
6.70: Comparison of Normal and Bt Cotton STRENGTH Grams/tex	
6.71: Comparison of Normal and Bt Cotton Coarseness in Micronaire	
6.72: Comparison of Normal and Bt Cotton in terms of Short Fibre Content	
6.73: Convolutions	
6.74: Comparison of Staple Length in Normal and Bt Cotton	
6.75: Comparison of Trash in Normal and Bt Cotton	
6.76: Comparison of Moisture Content in Normal and Bt Cotton	
6.77: Comparison of Elongation in Staple of Cotton in Normal and Bt Cotton	

6.78: Comparison of Colour of Cotton in Normal and Bt Cotton	
6.79: Comparison of Body of Cotton in Normal and Bt Cotton	
6.80: Comparison of Spinnability of Cotton in Normal and Bt Cotton	
6.81: Comparison of Maturity of Cotton in Normal and Bt Cotton	
6.82: Trend in Usage Of Bt Cotton in Spinning Mills	
6.83: Extent of Increase in Bt Cotton Usage by Spinning Mills	
6.84: Extent of Decrease in Use of Bt Cotton by Spinning mill	
6.85: Improvement of Yarn Quality Owing to Use of Bt Cotton	
6.86: COUNT	
6.87: STRENGTH	
6.88: THIN	
6.89: THICK	
6.90: NEPS	
6.91: TOTAL	
6.92: U%	
6.93: HARINESS	
6.94: CLASSIMATE	
6.95: OBJECTABLE FAULTS	
6.96: ELONGATION	
6.97: HARINESS	
6.98: Machines Changed During Recent Past by Spinning Mills	
6.99: Causes for Improvement in Yarn Quality	
6.100: Relative Contribution to Quality of Yarn – Machinery Vs Bt Cotton
