ACKNOWLEDGEMENT

I, humbly feel that happiness lies not only in pursuit of knowledge but also in reaching its ultimate goal and therefore, at this juncture, I stand with the kernal of my endeavours in my hands, with the blessings bestowed on me by the “Almighty GOD”. While pursuing this course of study many visible and invisible hands pushed me forward on the right path and enlightened me with their knowledge and experience.

The present research work entitled “ETHNOZOOLOGICAL SURVEY OF SOUTH - EASTERN RAJASTHAN WITH SPECIAL REFERENCE TO DRUGS OF ANIMAL ORIGIN AS USED BY THE TRIBALS” has been carried out under the able and magnanimous guidance of Dr. H. K. Azmi, Reader, Department of Zoology, Shibli National (P.G.) College, Azamgarh, who, with all his ability, sincerity, keen insight and mental vigour, has guided me for the completion of this study and without whose everlasting inspiration, constructive criticism, congenial discussion, unflinching interest and soothing affection throughout the course of research, it would have been a herculean task for a person like me to reach its end.

I owe a lot to Dr. Iftekhar Ahmad, Principal, Shibli National (P.G.) College, Azamgarh, for according permission to me to work
and complete my thesis in his reputed institution.

My vocabulary falls short of words to express my feeling, emotions and gratitudes from within my heart to my friends Mr. Satyendra Kumar Yadav and Miss. Kaynat Fatima who always enthused and encouraged me, in one way or other, for bearing and enduring the rigours and hardships involved in completion and attaining of this work.

Place : Azamgarh
