

CONTENTS

Section	Page
Preface	

CHAPTER-I INTRODUCTION

1.1	Introduction and Motivation
1.2	The kinematical Λ models
1.3	Dark Energy Universe
1.4	Scalar-field Model

CHAPTER-II A STEADY STATE INFLATIONARY UNIVERSE

2.1	Introduction
2.2	Field Equations of BD Theory with Creation of Matter
2.3	General Solution
2.4	Particular Solution
2.5	Concluding Remarks

CHAPTER-III
CONSTANT DECLERATION PARAMETER IN NORDTVEDT'S
THEORY

- 3.1 Introduction
- 3.2 Field equations of Nordtvedt's theory
- 3.3 Exact solutions with constant deceleration parameter
- 3.4 Concluding Remarks

CHAPTER-IV
ACCELERATED EXPANSION OF THE UNIVERSE

- 4.1 Introduction
- 4.2 Recipe for the Scalar Field Potential
- 4.3 Recipe for Tachyonic Potential
- 4.4 Concluding Remarks
