LIST OF TABLES

Table No. | Title
---|---
2.1 | Socio-Economic and Demographic indicators for Uttar Pradesh and its Himalayan region.
2.2 | Distribution of villages according to sex ratio (female per 100 males) in physical region and administrative units in Uttar Pradesh Himalayan region.
2.3 | Distribution of selected villages by physical regions, districts, tehsils and total number of households.
2.4 | Distribution of villages by households surveyed and sex ratio (female per 1000 males) in the study area.
2.5 | Caste break-up of selected households.
2.6 | Table showing case of non-responses and the number of successfully interviewed households.
3.1 | Decadal growth rates of population (1951-1991)
3.2 | Density of population (1981, 1991)
3.3 | Pattern of sex ratio (1981, 1991)
3.4 | Age and sex distribution of population (1981)
3.5 | Male net migration (1981)
3.6 | Percentage of urban population to total population (1981, 1991)
3.7 | Distribution of urban population in different class towns and number of towns (1981)
3.8 | Percentage of literate to total population (1991)
3.9 | Percentage of scheduled tribes population to total population (1981)
3.10 | Percentage of scheduled castes population to total population (1981)
3.11 | Dependency Ratio (1981)
3.13 Average Functional Land Holding per cultivator in hectares in Uttar Pradesh (1988)
3.14 Districts & regionwise average productivity of major crops per hectare (in quintals) in Uttar Pradesh (1988)
3.15 Percentage of irrigated land to total shown area and irrigation intensity (1986-87)
3.16 Use of chemical fertilizer per hectare in Uttar Pradesh (1986-87)
3.17 Total production (Rs.) and investment from registered manufacturing factories in U.P. Hills (1985-86)
3.18 Total number of production units & employment by registered manufacturing factories Uttar Pradesh Hills (1985-86)
3.19 Per capita income (Rs.) in Uttar Pradesh Hills region
3.20 Expansion of road network in Uttar Pradesh hills regions (1987-88)
3.21 Educational infrastructure in Uttar Pradesh hills region (1987-88)
3.22 Electrification of village in Uttar Pradesh hills region (1987-88)
4.1 Rate of outmigration from Uttar Pradesh Himalayas by types of outmigration
4.2 Rates of outmigration from Uttar Pradesh Himalayan regions by sex
4.3 Rates of outmigration from different physical sub-region of Uttar Pradesh Himalayas
4.4 Rates of outmigration by social groups of population from Uttar Pradesh Himalaya region
4.5 Rates of outmigration from Uttar Pradesh Himalayan region by distance of villages from road and towns
4.6 Age and Sex profile of outmigrants from Uttar Pradesh Himalayan region
4.7 Levels of education among outmigrants from Uttar Pradesh Himalaya

4.8 Distribution of gainful outmigrants by different age-groups from Uttar Pradesh Himalayan region

4.9 Distribution of gainful outmigrants from different level of education

4.10 Marital Status of gainful outmigrants from Uttar Pradesh Himalayas

4.11 Distribution of gainful outmigrants from Uttar Pradesh Himalayan region by their type of employment

4.12 Distribution of gainful outmigrants from Uttar Pradesh Himalayan region by their annual income

4.13 Reasons of gainful outmigration from Uttar Pradesh Himalayan region

4.14 Distribution of gainful outmigration by their duration of migration

4.15 Distribution of gainful outmigration by migration stream from Uttar Pradesh Himalayan region

4.16 Distribution of gainful outmigrants from Uttar Pradesh by main receiving cities

4.17 Occupational status of gainful outmigrants at place of origin before migration

4.18 Spatial mobility of gainful outmigrants from Uttar Pradesh Himalaya

4.19 Sources of information of gainful outmigrants about Employment at the place of destination

4.20 Visits paid by gainful outmigrants to place of origin in last one year

4.21 Distribution of gainful migrants by their future plan of settlement

5.1 Means and standard deviations of different variables for Uttar Pradesh Himalayas and its sub-regions
5.2 Inter correlation matrix of variables taken for study (Uttar Pradesh Himalayas)

5.3 Summary of the results of the step-wise regression analysis (Uttar Pradesh Himalayas)

5.4 Inter correlation matrix of variables taken for study (Garhwal sub-region)

5.5 Summary of the results of the step-wise regression analysis (Garhwal sub-region)

5.6 Inter correlation matrix of variables taken for study (Kumaon sub-region)

5.7 Summary of the results of the step-wise regression analysis (Kumaon sub-region)

6.1 Age and Sex distribution of population by their status of origin

6.2 Test of significance of two sample proportions of age and sex distribution of population

6.3 Pattern of Sex ratio by migratory status of household population

6.4 Average number of children born to females in broad age-groups by migratory status of their husbands

6.5 Literary Rate by Migratory status of household population

6.6 Test of significance between two sample proportion of male and female literate by migratory status of population

6.7 Levels of educational qualification by migratory status of household

6.8 Percentage distribution of households by their migratory status and annual income from all sources

6.9 Percentage distribution of households by their migratory status of households and annual percapita income

6.10 Percentage distribution of households by land holdings (in hectare) and migratory status
6.11 Percentage distribution of households by coverage of irrigation and migratory status

6.12 Male and female work participation rate by migratory status of households

6.13 Dependency ratio among migrant and nonmigrant households

6.14 Percentage distribution of households by annual expenditure on chemical fertilizer and migration status

6.15 Percentage distribution of households by use of HYV seeds and migration status

6.16 Percentage distribution of households using iron-plough by migration status

6.17 Percentage distribution of households by annual expenditure on agricultural labour and migration status

6.18 Percentage distribution of households by annual per student expenditure on education by migration status

6.19 Percentage distribution of households per capita expenditure on clothing by migration status

6.20 Percentage distribution of households annual per capita expenditure on medicine and health by migration status

6.21 Percentage distribution of households by density per room and migration status

6.22 Percentage distribution of households by types of house and migration status

6.23 Percentage distribution of households by access to basic facilities and migration status

6.24 Test of significance (chi-square test for basic facilities)

6.25 Percentage distribution of households having access to electronic information media and entertainment by migration status
(vi)

6.26 Chi-Square ($X^2$) test of significance for items of electronics information media and entertainment

7.1 Percentage distribution of households receiving remittances in Uttar Pradesh Himalaya

7.2 Distribution of gainful outmigrants by quantum annual remittance send to place of origin

7.3 Percentage distribution of households received remittances during last one year by items on which major part of remittance spent

7.4 Percentage of gainful out-migrants who have sent remittances during last one year by demographic and socio-economic characteristics

7.5 Rates of returned migration to total outmigration by reason of return in Uttar Pradesh Himalaya region

7.6 Percentage distribution of return migrants by reason of return

7.7 Percentage distribution of return migrants by previous place of residence

7.8 Percentage distribution of returned migrants in Uttar Pradesh Himalayas by decision to re-outmigration

7.9 Percentage distribution of returned migrants by productive use of resources brought by them in Uttar Pradesh Himalaya

7.10 Percentage distribution of return migrants by other than productive uses of resources brought by them in Uttar Pradesh Himalaya
