ACKNOWLEDGEMENTS

In the process of working with Prof. B.P. Murty, my supervisor, I learnt many practical aspects of research. I extend my deep sense of gratitude towards him for his co-operation, concern and guidance.

I owe a deep sense of gratitude to Prof. L.K. Pandey and Prof. V.K. Jain for encouraging me throughout my research career in the School.

I extend my sincere thanks to Dr. A.K. Attri and Prof. J. Subba Rao for providing me round the clock computer facility at the CIF.

My special thanks are due to Peter Eckhoff, Dennis Atkinson, Brian Orndorff, Joseph Scire, Joe Scire, Tom Coulter of EPA in extending guidance through E-mail for the model simulation.

I cannot forget Azadi's timely help in sorting out problems in the model simulation. I am thankful to my lab. mates for their co-operation.

I extend my sincere thanks to Ramaseshu, Sarkarda, Nelson, Mandal, Satya, Raju, Anand, Manoj bhai, KP, Anupam, Anup, Uma, Paul, Bisht, Andrew, Archana and many other friends for their help in one form or the other.

I am thankful to Venkat and Subba Rao (BIC) for guiding me to work with DEC-ALPHA at different phases of my research work.

I extend my sincere thanks to Aditi in giving her valuable time in editing my thesis.

I am thankful to India Meteorological Department for providing the meteorological data in carrying out the research work.

This work was supported by the JNU/UGC fellowship.
