CONTENTS

S. No. | CHAPTER I | Page No.
--- | --- | ---
1 | INTRODUCTION | 1-24
  1.1 The Problem Stated | 1
  1.2 Aims and Objectives of the Study | 3
  1.3 Research Questions | 4
  1.4 The Data Sources and Methodology Used | 4
  1.5 The Automobile Industry in India | 6
    1.5.1 The Historical Evolution of Automobile Clusters in India | 6
  1.6 The Automobile Industry Today | 7
  1.7 Review of Related Literature | 8
    1.7.1 Conceptual, Historical and Theoretical Approaches for clustering | 9
    1.7.2 Policy Environment and Evolution of the Indian Automobile Industry | 10
    1.7.3 Agglomeration and Specialization of Different Types of Clusters | 13
    1.7.4 Productivity, Efficiency, Comparative and Competitive Advantages of Clusters | 15
    1.7.5 Globalization and Supply Chain Networks of the Automobile Industry in India | 16
    1.7.6 Global Comparisons of the Indian Automobile Industry | 19
    1.7.7 Technology and Other Related Aspects | 21
  1.8 Chapter Scheme | 23

CHAPTER II | 25-56
STRUCTURAL PARAMETERS OF THE AUTOMOBILE INDUSTRY | 25
  2.1 An Overview of the Automobile Industry in India | 25
    2.1.1 Growth Targets Set in the Automobile Mission Plan (AMP) | 27
2.2 Data Sources and Methodology Used 29
2.3 The Automobile Manufacturing Firms 30
2.4 Production of Vehicles in India 32
  2.4.1 Production Composition of Vehicles 33
  2.4.2 Production Trends: Segment Wise 34
  2.4.3 Sale of Vehicles 36
  2.4.4 Domestic Market Share of Automobiles 37
  2.4.5 Automobile Exports 37
  2.4.6 Automobile Imports 38
2.5 Largest Manufacturers in the Automobile Industry 39
  2.5.1 Passenger Cars and Utility Vehicles 39
  2.5.2 Commercial Vehicles 41
  2.5.2.1 Medium and Heavy Commercial Vehicles 42
  2.5.2.2 Light Commercial Vehicles 42
  2.5.3 Two-Wheelers 43
  2.5.3.1 Growth of the Two-Wheeler Segment in India 43
  2.5.3.2 Production Trends in the Motorcycles Sub-Segment 44
  2.5.3.3 Three-Wheelers 45
2.6 India and the World 46
  2.6.1 International Trade Scenario 48
  2.6.2 AutomobileExports 48
  2.6.3 Automobile Imports 48
2.7 Automobile Component Industry in India 49
  2.7.1 Direction of Auto-Component Exports 52
  2.7.2 Composition of Auto-Component Exports 52
  2.7.3 Problems Associated with the Production of Auto Components 53
2.8 Summary and Conclusions 55

CHAPTER III
AUTOMOBILE CLUSTERS IN INDIA 57-78

3.1 The Automobile Clusters in India 57
3.2 The National Capital Region (NCR) Cluster 60
3.3 Mumbai-Pune Cluster 62
3.4 Bangalore and Chennai Cluster
3.5 Theoretical Approaches of Cluster formation
3.6 Pre-conditions for Cluster Development
3.7 Historical and Organizational Structure
3.8 Centripetal and Centrifugal Forces of Cluster Development
  3.8.1 Market Access and Transport Costs
  3.8.2 Agglomeration Economies
3.9 Benefits of Cluster Development
3.10 Advantages and Disadvantages of Cluster Development
3.11 Identified Intra and Inter cluster Problems
  3.11.1 Production-Related Constraints
  3.11.2 Transport Infrastructure
  3.11.3 Power
  3.11.4 Labour
  3.11.5 Materials
  3.11.6 Taxation and Incentives
  3.11.7 Environmental Pollution
  3.11.8 Other Constraints
3.12 Conclusions

CHAPTER IV
PERFORMANCE INDICATORS OF AUTOMOBILE CLUSTERS IN INDIA
4.1 The Data Sources and Methodology Used
  4.1.1 Hirschman-Herfindahl Index
  4.1.2 Location Quotient (LQ)
  4.1.3 Note on ASI Data
4.2 Employment Share in the Automobile Industry in India
  4.2.1 Intra-cluster Analysis of Employment
  4.2.2 Structural Shift of Employment in Automobile Clusters
  4.2.2.1 Employment share in the NCR Cluster
  4.2.2.2 Employment share in Mumbai-Pune Cluster
  4.2.2.3 Employment share in Bangalore-Chennai Cluster
4.3 Productivity per Person
4.4 Gross Sale Value 94
4.4.1 Gross Sale Value: An Overview 94
4.4.2 Intra-cluster Analysis of Gross Sale Value 97
4.4.3 Inter-Cluster Analysis of Gross Sale Value 97
4.5 Number of Automobile firms in India 99
4.5.1 Intra-cluster Analysis of Automobile firms 100
4.5.2 Inter-cluster Analysis of Automobile firms 101
4.6 Hirschman-Herfindahl Index (HHI) 101
4.6.1 H.H. Index (Based On Total Number of Employment) 101
4.6.2 Hirschman-Herfindahl Index (Based on Gross Sale Value) 102
4.7 Location Quotients (LQ) 104
4.7.1 Employment Location Quotient (LQ) 104
4.7.2 Location Quotient (LQ) based on Gross Sale Value 105
4.8 Evidences for the automobile clustering in India 107
4.9 Implications for Policies and Strategies 108
4.10 Conclusions 109

CHAPTER V
BACKWARD AND FORWARD LINKAGES OF THE AUTOMOBILE INDUSTRY 112-132
5.1 Assumptions of Input-Output Transaction Table (IOTT) 113
5.2 The Data Sources and Methodology Used 114
5.3 Limitations of Input-Output Analysis 116
5.4 Direct Backward Linkages Developed of the Automobile Industry 118
5.5 Direct Forward Linkages Developed of the Automobile Industry 124
5.6 Indirect Linkages to the Automobile Industry 125
5.6.1 Indirect Backward linkages to the Automobile Industry 126
5.6.2 Indirect Forward Linkages Developed to the Automobile Industry 128
5.7 Conclusions 130
CHAPTER VI
SUMMARY OF FINDINGS AND CONCLUSIONS 133-138

6.1 On the Structural Parameters of the Automobile Industry 133
6.2 On the Automobile Clusters in India 134
6.3 On the Performance Indicators of Automobile Clusters in India 134
6.4 On the Backward and Forward Linkages of the Automobile Industry 136

Bibliography 139-151
Appendices 152-204
