Acknowledgements

Starting in the name of Allah, “The Most Beneficent, The Most Merciful”, who has bestowed me with ample potential and caliber to sewn up this thesis work.

Words are insufficient to bear the depth of gratitude that I owe to my esteemed supervisor, Prof (Mrs.) Farukh Arjmand whose inspiring guidance with a professional approach, deep knowledge of the subject, invaluable advice and scholarly guidance made my task easier. Having inculcated in me the spirit of inquisitiveness and curiosity, she has been a constant source of inspiration throughout this endeavor.

I express my indebtedness to Prof Sartaj Tabassum, Department of Chemistry, AMU, Aligarh, for his useful suggestions, noble guidance and generous help to enhance my dedication to sort out the complexities and to accomplish this task successfully.

My sincere thanks are also due to the Chairman, Prof Zafar A. Siddiqui, Department of Chemistry, AMU, Aligarh, for providing me the necessary research facilities during the period of my research work.

I would like to express my appreciation for my lab colleague Mehwash Zaki, Shipra Yadav and Mohammad Usman for their sound advice, good company, and for reading the multiple drafts of the entire document and pointed out the mistakes politely.

I am extremely fortunate to have encouraging and affectionate father Mr. Shamsi and mother, Mrs. Adela, my husband Dr. Waddhaah and son Mohammad for their inspiration and the innumerable sacrifices, the unmatched love, sincerity and for encouraging me to accomplish this task and provided me the self-confidence.

I would also acknowledge the support and love of my dear brothers Mr. Labib, Dr. Samir, Mr. Mohammed and Mr. Ibrahim and my dear sister, Ms. Malak whose blessings, inspiration, discipline and love gave me the spirit, energy to walk through the tough times which cannot be forgotten for cheering me up and making me smile always in difficult circumstances.

Manal Shamsi
