ACKNOWLEDGEMENTS

The most pleasant duty in a work like this to remember, record and ruminate my obligation to all those who had made it possible to complete this.

I solicit my deep sense of gratitude and heartfelt regards to my guide and supervisor Dr. Kamlesh Kumar, Head and Reader in Department of Botany, SSSVS Government P.G. College, Chunar (Mirzapur). My words are failing to express his ablest guidance, unsurmountable enthusiasm, tireless encouragement and constructive discussion. His affection and love, patience and perseverance, punctuality, which I really cannot forget. His devotion to duty will remain and ideal to me in future.

I am extremely thankful to Dr. Devashis Singh (Co-supervisor), Reader, Department of Botany, Harishchandra P.G. College, Varanasi for his healthy suggestion and kindness to help throughout research work.

I am also grateful to Dr. R.P. Singh and Dr. Raghwender Mall, Principal, S.S.S.V.S. Government P.G. College, Chunar (Mirzapur) for providing laboratory facilities and encouragement during the present study.

My heartfelt thanks are due to my friends Deepika Srivastava, Rajlaxmi Singh, Siddharth Dixit and Atul Verma. They have all along shared pains and pleasures with me. I am proud of them.

It is not merely a formality but my pious obligation and duty to record my heartiest gratitude to my parents who have given me the love,
affection, care, wisdom, knowledge and education, which has helped me in all walks of life, whether it be hopelessness despair, frustration, fatigue or anything else. Besides, wherever, I was in despair, they gave me the power to work patiently. Are there words to communicate my heartfelt feelings towards them?

My husband, Mr. Brijesh Kumar, has not only proved a true partner in these trying times but also has been an illustrate example of patience and undertaking. I shall always remain grateful to him.

I received equal co-operation from my sister Shreya, brother Atul and in law family in fact but for their encouragement, I would not have reached this stage in my higher studies. I gratefully record my thanks to all of them.

I am also thankful to Mr. Bhai Lal (DDS Computer Works), Nevada, Sunderpur, Varanasi for undertaking the ardous task of typing my manuscript and made a wonderful job out of it.

Last but not least, I thank my family members for their services and co-operation for providing an atmosphere to carry out the research work.

Varanasi
