ACKNOWLEDGEMENT

It is indeed a proud privilege of mine to greatly acknowledge my indebtedness to my Supervisor Dr. (Mrs.) Anita Singh, Associate Professor, Department of Food and Nutrition, Faculty of Home Science, Sri. A.K.P.G. College, for giving me an excellent guidance to carry out the entire work with her able supervision and training. I have been capable of completing this arduous task, whose constant encouragement, wholehearted cooperation, able guidance and all-important suggestions were of inestimable value throughout the period of this study.

I express my heartful gratitude to the Principal Dr. (Mrs.) Madhu Asthana, who gave me an opportunity to conduct the present research work in a prestigious institution. Particularly she helped me at every step of the present endeavour. I will ever remain grateful for her kindness and benignity.

I feel was sense of gratitude to Dr. (Mrs.) Suman Mishra, Associate Professor, Head, Department of Home Science, for her valuable suggestions, guidance and help rendered during period of my research work. I am also very thankful to all the teachers of Department of Home Science for their cooperation’s and valuable suggestions.

I am highly obliged to the Principal Dr. Rashmi Rekha Pandey of Sri. R.D.A.K.P.G. College of Hathras, they co-operated me in my work open heartly with pleasant smile and various touching intimate comments. My special thanks are due for them.

I am indeed grateful to Prof. B.D. Bhatia, Dean, Institute of Medical Sciences, Banaras Hindu University, for providing me with the caliper facility for this investigation.

I feel immensely grateful in placing on record my profound indebtedness and gratitude to my husband Mr. M.S. Yadava for his encouragement, inspirations, valuable advice and all possible facilities.
I would be failing in my duties if I do not express my gratitude to my beloved son Tushar Yadava who spent lot of his time in bringing out this manuscript through his computer expertise.

Parents are next to God and their silent sacrifices for me cannot be expressed into words. I express my innermost gratitude towards my parents for their inspiration, encouragement and moral support, which boosted me every time, to work with a new and high spirit. Without their care, affection, tolerance and support, it would have been impossible to achieve what little I have today. I wish to dedicate this thesis to my affectionate mother.

I am also thankful to all respondents, who were participated in the study for the kind co-operation and healthy participation.

I am thankful to Mr. H.P. Singh and his beloved son Mr. Montek Singh for their cooperation during my research work.

Words are not sufficient to express my deep thanks to Dr. J.N.P. Gupta, statistician who played a major role in completion of my study. Nothing was possible without his constant help and co-operation.

I am thankful to my colleague Dr. Meeta Kaushal for her continuous help and every possible effort rendered for the completion of this research work.

I am also thankful to Mr. Prashant Kumar (Photo studio, Hathras) for taking photographs during the study.

I shall be failing in my duty if I do not acknowledge the work of Mr. D. Banerjee for his help in word processing and computerized graphic presentation.

Last but not least, I am thankful to all to whom I could not mention who helped me directly or indirectly.

(SUSHMA YADAVA)
