ACKNOWLEDGEMENTS

I am sincerely most grateful to my guide Prof. V.V. Krishna, without the able guidance of whose, this dissertation would not have come into existence. It is due to his affection, valuable critical comments, suggestions, advice and encouragement that I have been able to write this dissertation in a better shape and order.

I am most indebted to Prof. A Rahman, Founder Director, NISTADS, and Dr. Ashok Jain, Former Director, NISTADS for their invaluable guidance, advice and encouragement throughout my career.

I am extremely thankful to Prof. Deepak Kumar, History of Science and Education, Zakir Husain Centre for Educational Studies, School of Social Sciences, Jawaharlal Nehru University, for his critical comments and valuable suggestions on the manuscript.

I am also grateful to other faculty members, Prof. Ashok Parthasarathi, Dr. P.N. Desai, Chairman and Prof. Nassir Tayabji of the Center for Studies in Science Policy, for their encouragement from time to time. I am particularly thankful to Prof. Ashok Parthasarathi, for making available partial funding for my field visit to Beijing and Shanghai, China.

My thanks are also due to the staff members of the center (Mrs Shyamala Krishnamurthy, Mrs Meena Ahuja and others, for their kind help and cooperation at various times.

I am sincerely grateful to Prof. Rajesh Kochhar, Director, NISTADS for his constant encouragement and for carrying out this research work at NISTADS, and providing me partial funding for my field visit to Beijing and Shanghai, China.

I am thankful to Prof. Fang Xin (Former Director, Institute of Policy and Management (IPM), Beijing, China), and Prof. Mu Rongping, Director, Institute of Policy and Management, Beijing for extending all the help in carrying out the survey of the biotechnology institutions in Beijing and Shanghai. I am also grateful to Prof. Li Zhenzhen, and Dr. Duan Yibing, scientists at IPM, Beijing, for helping to lay hand at Chinese data and to translate the questionnaire into Chinese language and getting it completed from the scientists in the biological institutions in Beijing and Shanghai. I am also grateful to other scientists at IPM and other institutions in Beijing and Shanghai I visited, for their help at various levels.

My sincere thanks are due to Prof. Gu Shulin, Tsinghua University, Beijing, and Prof. Chen Wenhua, Director, Science, Technology and Development Research Center, Central South University of Technology, Changsha, Hunan; from whom I have gained a lot in terms of data collection and useful discussions on science and technology situation in China during my visits to China and their visits to India.
I am also thankful to Prof. Chang Qing, Counselor, Science and Technology, Chinese Embassy at New Delhi, for making my field visit to China successful.

I express my sincere gratitude to my parents for their inspiration and to my wife for extending me the moral support and bearing with me from time to time.

Lastly, I can not forget my long association with Shri M.A. Qureshi, Scientist F, NISTADS, with whom I had fruitful discussions from time to time.

Dated 27 December, 2004, New Delhi

V.P. Kharbanda
