

ACKNOWLEDGEMENT

I am very fortunate to offer reverence to Late Rajarshi Udai Pratap Singh 'Judev,' the Founder of Udai Pratap Autonomous College Varanasi. He was a man with real sense of humanity and from his lifetime sacrifice and efforts, had established such a great temple of education engaged in developing human resources devoted to cause of education and research.

It is my proud privilege to express gratitude to my supervisor Dr. A.K. Singh, Reader, Department of Botany, Udai Pratap Autonomous College Varanasi, for his kind guidance, encouragement and co-operation. I am grateful to my co-supervisor, Dr. Sanjeet Kumar, Chilli Breeder (Scientist, Plant genetics), Indian Institute of Vegetable Research (IIVR) Varanasi, who helped me at every step of this investigation, starting from setting objectives, designing and execution of experiment and finally present and discuss the results in the form of this thesis.

I take this opportunity to express my deep sense of gratitude to Dr. Mathura Rai, Director, IIVR, Varanasi for allowing me to conduct experiments at IIVR and providing all necessary facilities. I also express my gratitude to Dr. C.B. Tiwari Principal, Udai Pratap Autonomous College Varanasi. I will remain indebted to them for their kind help.

I whole heartedly acknowledge the help and guidance provided by Dr. Jagdish Singh, Senior Scientist, Biochemistry, IIVR, Varanasi. He was always available during the tenure of my experiments, to provide valuable suggestions, guidance and incessant support.

I convey my sense of gratitude of all the Principal Scientists, Senior Scientists, Scientists, of IIVR, Varanasi, and all the teachers, of the Udai Pratap Autonomous College Varanasi, for their encouragement and support throughout the period of this study. A special thanks to Dr. Ajay Verma for his unfailing help with statistical analysis of the generated data.

I also express my cordial thanks to Dr. B.N. Upadhyay, Professor and Head, Ayurveda, IMS, BHU and the members of his group Dr. B.K. Sevatkar, Dr. A.R. Bhattacharya, Dr. A.C. Tripathi, Dr. B.G. Tiwari and Dr. Kashika Sharma, whose suggestions always helped me a lot to stay active and perform better.

I express my thanks to Dr. T.N. Chaubey, Mr. P.C. Tripathi, Mr. S.K. Singh, Mr. Rajesh Kumar Rai, Mr. Ajayan. P. Nair and Mr. A. Neil Vincer of IIVR, Varanasi for their sincere help and concern at various stages.

I express thanks to all my seniors Vineeta Singh, Sunil Kumar Rai, G.K. Rai, Achuit Kumar Singh, K.K. Mishra, Kundan Prasad and Amit Kumar Upadhyay for their kindness and encouragement during execution of experimentations and writing of this thesis. I take special privilege to express my gratitude and thanks to all my friends Sanjay, Shubha, Vibha, Sanchita, Anita, Abha, Upama, Virendra, Rajeev, Tapan, Nikhil, Prabhash, Ashutosh, Neeraj and Ajeet for their kind co-operation and constant help to complete my thesis work.

My words fails to express the deepest sense of respect and honour to my father Sri Ram Sagar Pandey, and mother Mrs. Shail Pandey for their encouragement and over streaming support, without whose blessing and affections, I would not have achieved this level of academic pursuit.

I express my heartiest affection to my elder brother Dr. Praveen Chandra Pandey, Bhabhi Mrs. Madhu Bala Pandey, Sister Mrs. Preeti Dubey, my lovely Rashmi and Jahnavi for their love, affection and understanding. They helped me to achieve this goal and made my dream come true. I am highly grateful and obliged to express my thanks to Dadi ji, Nani ji. Mama ji, Mami ji, for their blessings and affection they showered on me.

Last but not the least, I acknowledge my regards to all who loved and cared for me during the tenure.

Jyoti Pandey.
