ACKNOWLEDGMENTS

I express my sincere regards to Dr. B.N. Koley, Professor, the department of Physiology, University College of Science, University of Calcutta but for whose wise and inspiring guidance this work would not have seen the light of the day.

I am indebted to Dr. (Mrs.) Juthika Roy, Reader, Department of Physiology, University of Calcutta for her keen interest and valuable advice throughout the course of the study.

I do acknowledge with sincere thanks the cooperation extended and suggestions offered by Prof. A.K. Chatterjee, Head of the Department of Physiology, University of Calcutta.

Thanks are due to Prof. C. Deb, Prof. R.N. Sen, Dr. C.D. Dey, Dr. A.K. Das Gupta, Mrs. S. Dasgupta, Dr. (Mrs.) Chitralekha Mukherjee, Dr. S. Chatterjee and other respected teachers in the Department of Physiology.

I am indebted to Dr. S. Bhattacharjee, Dr. T.K. Ghosh, Dr. S.K. Das, Mrs. B. Pathak, Mrs. S. Sinha, Mrs. K. Mullick, Mr. G. Paul, Mr. B.S. Roy, Mrs. N. Chatterjee and other colleagues in Electrophysiological Unit and all members of staff of the Department of Physiology, University of Calcutta for their precious help for the preparation of this thesis.

I am also grateful to Prof. C.R. Maity, Vice-Principal and Head of the Department of Bio-Chemistry, Burdwan Medical College and all members of staff of the Department. Their constant and unwavering help in the course of the investigation has made the preparation of this thesis possible.
I express my gratitude to my revered colleagues in the Department of Paediatrics in R.G. Kar Medical College and Burdwan Medical College who have been a source of inspiration to me.

My thanks are also due to Master Amit Koley and Mr. Hemanta Koley for their constant help.

I extend my sincere thanks to Dr. Nepankar Hazra, Lecturer, Department of Zoology, Champadanga College, Hooghly for his valuable assistance and to Mr. Sakti Proaad Choudhury for the meticulous typing.
