ACKNOWLEDGMENTS

Thanks and gratitude are owed to many kind individuals without whose help this piece of work would never have reached completion.

First among those to whom I am indebted is my guide Dr. Leela Omchery (Retd. Prof. Department of Music, Delhi University) who supported me all along both mentally and by improving the quality of the writing by providing over sight and critiques in the special areas of interest.

My sincere gratitude to Sri. Kizhekkennadim Govindan Nair who served as the monitor of the ebb and flow of materials for this thesis.

The staff of the University Library and Manuscript Library Karippuram are also sincerely acknowledged for their significant contributions.

I am also indebted to Miss Lekshmy and Mrs. Bindhu kala for bringing this presentation to light.

My extended thanks to my husband P.V Sivan for being a tower of strength in pulling the piece together and an unfailing source of cheerfulness and encouragement.

Last but not the least of those who deserves mentions are my family members, especially my cousin Dr. Deepti Omchery Bhalla.
