7. Green leaves/plant at flower initiation as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

8. Fresh Weight of green leaves-g/plant at flower initiation as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

9. Fresh Weight of Stem-g/plant at flower initiation as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

10. Fresh Weight of Shoot and Root-g/plant at flower initiation as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

11. Effect of different levels of nitrogen and sulphur on % total-N at flower initiation in *Brassica juncea* L. cv. Varuna.

12. Effect of different levels of nitrogen and sulphur on % total protein at flower initiation in *Brassica juncea* L. cv. Varuna.

13. Effect of different levels of nitrogen and sulphur on % reducing sugar at flower initiation in *Brassica juncea* L. cv. Varuna.

14. Effect of different levels of nitrogen and sulphur on total free amino acids at flower initiation in *Brassica juncea* L. cv. Varuna.
15. Days to 50% flowering as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

16. Days to 95% maturity as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

17. Number of Branches/Plant at harvest as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

18. Length of siliqua-cm at harvest as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

19. Number of siliquae/plant at harvest as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

20. Number of seeds/Siliqua at harvest as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

21. Number of seeds/Plant at harvest as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

22. Seeds yield-g/Plant at harvest as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

23. Biological yield-g/Plant at harvest as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.
24. Harvest Index % as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

25. Seed Yield (q/ha) as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

26. Test weight (1000-grain weight) of seeds-g as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.

27. Oil content (%) in seeds as influenced by different levels of nitrogen and sulphur in *Brassica juncea* L. cv. Varuna.
