

## Papers presented at conferences

1. Paper entitled “Fabrication of Solid State Dye-Sensitized Solar Cell Using Imidazole Based Hole Transporting Material” has been presented in DAE-SSPS (2012) held at IIT, Bombay.
2. Paper entitled “CTAB Capped Silver Nanoparticles for Plasmonic Dye-Sensitized Solar Cell” has been presented in DAE-SSPS (2013) held at Thapar University, Patiala.
3. Paper entitled “Optimization of Scattering Enhancement by Varying the Morphology of Photoanode in Dye-Sensitized Solar Cells” has been presented in International photovoltaic solar energy conference (IPSEC) held at Savitribhai Phule Pune University, Pune.
4. Paper entitled “Extending the SPR of silver nanoparticles over entire visible regime” has been presented in National conference on ‘Innovative practices in chemical sciences’ held at Khalsa College for Women, Amritsar.
