List of the Tables

3.1: Distribution of Items under Each Objective
3.2: Number of Items before and after Editing
3.3: Sampling Procedure Adopted for Pre-try-out of the Items
3.4: Distribution of Items in various Objectives before and after Preliminary-try-out
3.5: Sampling Procedure Adopted for Try-out of the Items
4.1: Age of the respondents
4.2: Religion of the respondents
4.3: Marital status of the respondents
4.4: Type of family of the respondents
4.5: Age group of the respondent’s family members
4.6: No of school going children of the respondents
4.7: Pattern of housing of the respondents:
4.8: Number of rooms in the house of the respondents
4.9: Housing pattern
4.10: Food habit of the respondents
4.11: Designation for the respondents
4.12: Present status of the occupation of the respondents
4.13: Number of years of experience of the respondents
4.14: Source of income of the respondent
4.15: Educational status of the respondent
4.16: Literacy level of the respondent
4.17: For neo-literate workers
4.18: Number of workers interested for further study
4.19: Interest for further study
4.20: Number of workers interested in non formal education
4.21: Mode of institution for further study
4.22: No of workers who attended non formal classes
4.23: Period of attending the non formal classes
4.24: Preferable days for the non formal classes
4.25: Preferred time for the non formal classes
4.26: Different methods of non formal education
4.27: Preferred means for non formal education
4.28: Preferred Medium of instruction for the non formal education
4.29: Availability of reading material in own language
4.30: Frequency of Reading
4.31: Reading of newspapers
4.32: Language preferred for reading news paper:
4.33: Daily spent for reading
4.34: Adequacy of library facilities in the organization
4.35: Visit library or not
4.36: Regular visitor or not
4.37: Library catering to the needs of the workers
4.38: Satisfied with the library facility or not
4.39: Given a chance would you prefer higher education
4.40: If interested for higher education what media is preferred for higher education
4.41: Preference for children education
4.42: Meeting the educational needs of the children
4.43: Constraint for the higher education and guidance to the children
4.44: Present level education is sufficient to understand the occupational hazard.
4.45: Present level education is sufficient to meet the occupational skill:
4.46: Present level of education can is sufficient to understand the nature of work
4.47: Present level of education sufficient to communicate to other co workers
4.48: Present level of education sufficient to communicate with immediate supervisor
4.49: Present level of education sufficient to different occupational hazards
4.50: Present level of education sufficient to communicate with the neighbour
4.51: Spending of leisure time by gossiping with family and neighbor by the workers
4.52: Spending of leisure time by gardening
4.53: Spending of leisure time by watching television
4.54: Spending of leisure time by Listening radio by the workers
4.55: Spending of leisure time by the workers
4.56: Adequacy of educational facility is available in the community
4.57: Adequacy of Recreational facility in the community
4.58: Adequacy of Health care facility in the community
4.59: Adequacy of transport facilities in the community
4.60: Problem of Air Pollution as perceived by the respondents on the basis of their educational qualification
4.61: Problems of workers due to exposure to dry and hot climatic conditions
4.62: Poor sanitation conditions in and around the mines
4.63: Exposure to poison gases and fumes
4.64: Intoxication of workers while working under the mines
4.65: Exposure of workers to dust particles and minerals
4.66: Effect of chemical agents on workers
4.67: Workers perception on unhealthy working places in coal industries
4.68: Workers Perception on water pollution as a problem in and around the coal industry
4.69: Adopting right posture while working in mines
4.70: Long hours of work
4.71: Affect of biological agents on Health of Workers
4.72: Problem of suffocation inside the mines
4.73: Occupational stress and strain among the workers
4.74: Mental stress and strain among the miners
4.75: Underweight among the mine workers as a common problem
4.76: Workers awareness about occupational diseases
4.77: Workers chest pain as a common problem among mine workers
4.78: Respiratory diseases or infections among coal miners
4.79: Chronic cough of the coal mine workers
4.80: Body pain as regular phenomenon among the workers
4.81: Coal mine worker’s pneumoconiosis among coal mine workers
4.82: Risk of getting TB among the miners
4.83: Workers experiencing blood coming with cough
4.84: Workers are victim of asthma
4.85: Workers experiencing difficulties in breathing
4.86: Workers suffering from bronchitis
4.87: Workers are at risk of occupational impairment
4.88: Risk of silicosis is associated with the nature of work
4.89: Workers suffer from some type of allergy while working in the mines
4.90: Feeling of deafness under noise vibration under the mines
4.91: Workers are victim of hearing impairment
4.92: Skin infection is a common problem among the workers
4.93: Workers are prone to primary epithelialous cancer of skin for the nature of their job
4.94: There are susceptible cases of lung cancer among the workers
4.95: Workers gets the infection through rat bite under the mine
4.96: Workers suffer from shift lag.
4.97: Anaemia is a common health problem among the workers
4.99: Well trained line managers to train the workers on OHS
4.100: Workers wellbeing with respect to occupational health
4.102: Implementation of health & safety policies
4.103: Assessment of the risk to physical and mental health
4.104: The risks factors of physical and mental health
4.105: Health and safety policies get equal priority like Human Resource
4.106: Recording of accidents
4.107: Effective working of health and safety legislations
4.108: Enforcement of health and safety mechanism
4.109: Sick pay scheme for the workers
4.110: Claiming of damage by workers through legal action
4.111: Workers are made to undergo periodical health check-up
4.112: Investigations of the reportable incidents of occupational sickness and accidents
4.113: Existence of medical advisory service for occupational health matters
4.114: The health & safety executive body works according to the norms
4.115: Proper enforcement of the statutory rules and regulation in the coal mine industries.
4.116: The safety policies are communicated to all the employee from time to time.
4.117: The safety policies are prominently displayed for the awareness of the workers
4.118: The copy of the safety policies are reflected in the employees hand book
4.119: Health and safety notice board are maintained properly at appropriate places
4.120: The statutory requirements of occupational health are fulfilled in all aspects in the coal mine
4.121: The health and safety assessment is carried out periodically
4.122: Loss of working days for occupation related diseases
4.123: Training of workers in OHS at appropriate intervals:
4.124: Adaptation of safety measure at work place:
4.125: Compulsory insurance policies for the coal mine workers:
4.126: Health & safety
4.127: Existing Labour laws
4.128: On job training facility
4.129: Appropriate safety appliances for the miners
4.130: Availability of Advisory services
4.131: Different types of training mechanism:
4.132: Different types of safety and health measures.
4.133: The management and the trade unions discuss on various provisions of health and safety issues
4.134: Adequacy of Provisions for Occupational Related Diseases
4.135: Adaptation of Preventive Mechanisms for Occupational Health
4.136: Regular Health Awareness Program in the Coal Mines
4.137: Medical Provisions in the Industry
4.138: Safety and Health Personnel of the Mine
4.139: Trade Union and Management Collaborates for Safety and health
4.140: Feeling that the employers provide safe and healthy working condition in the organisation.
4.141: Help of union to develop encourage and enforce uniform minimum standard of health and safety in employment

4.142: Does your union recognise the importance of employee occupational health services

4.143: Trade unions concentrate on environmental control hazards for health and safety of the workers

4.144: Organisation providing statutory minimum medical services

4.145: Trade unions demand for providing full range of occupational health service to the workers

4.146: Organization taking the initiative to inspect work place to detect and correct violation of legal minimum health and safety standards

4.147: Unions providing mechanisms for consultative analysis and laboratory services to the employees to help them to control hazardous condition

4.148: Union giving priority to preventing those illness and accidents which are directly associated with the working conditions

4.149: Does your union make efforts to educate and motivate employees to develop better health habits

4.150: Unions making efforts to educate and motivate employees to develop better utilise the services of their own doctors

4.151: Trade unions making demand for the occupational health insurance of workers

4.152: The trade unions demand for occupational rehabilitation of the workers

4.153: The compensation by the organization against occupational diseases is adequate

4.154: Provision in the hospitals to measure toxic substances and toxicious agent in evaluating the quantitative exposure of worker

4.155: Occupational physicians are made accountable and responsible for industrial hygiene

4.156: Occupational illness responsible for creating absences from work

4.157: Occupational health related problem create problem of ineffectiveness at work

4.158: Adequate provisions for early diagnosis of diseases in the organisation

4.159: TU’s consult with health clinic managers to finalize priorities & budget allocations for worker’s treatment outside the industry
4.160: In the industry the workers compensation rate is as per law
4.161: Correlation Matrix on Various Items as perceived by the Doctors
4.162: Correlation Matrix on Various Items as perceived by the Labour Welfare Officers
