ACKNOWLEDGEMENT

I express my deep sense of gratitude and indebtedness to Prof. D.K. Nanda, former Head of the Department of Zoology, University of Calcutta and also in charge of Neuroendocrinology laboratory for his wise guidance, valuable suggestions right from the selection of topic up to completion.

I am thankful to the Head of the Department of Zoology for necessary laboratory facilities. I am indebted to Prof. S.G. Pal and Prof. B.R. Maiti, Department of Zoology, University of Calcutta for their valuable suggestions during my research work.

I would like to acknowledge the sophisticated analytical instrument facility (DST), All India Institute of Medical Science, New Delhi for providing electron microscope facility concerning my research work. I am also grateful to Dr. T. C. Nag, Associate Professor, Department of Anatomy, AIIMS for his cordial help and necessary suggestions.

I am thankful to my colleagues Smt. Supti Roy Chowdhury, Madhumita Some, Tanima Chatterjee, Champa Biswas, Anasuya Gupta, Trijit Nanda and Trisha Nanda for their untiring assistance and ready response. A special thanks due to Sri Chiranjeeb Dey, Senior UGC Scholar, RBC college, Naihati and Ishani Jana for her technical assistance.
It is a pleasant duty to express my sincere gratitude to Dr. K. K. Misra, Reader, Department of Zoology, R.B.C. College, Naihati for his constant help and inspiration throughout the course of investigation.

The present work could not have been completed without the inspiration of my family members for their support throughout my career.

Chaitali Chattopadhyay
