ACKNOWLEDGEMENT

This work has been carried out under the supervision of Prof. Kaushal Kumar Singh, Department of Mathematics, North-Eastern Hill University. I wish to convey my sincere thanks and heartfelt gratitude to him for his excellent guidance and invaluable help during the preparation of this thesis.

I express my profound gratitude to Prof. M. Ansari and Dr. A. M. Buhphang, Department of Mathematics, N.E.H.U., for giving Ph. D. courses and also for providing me with lots of help and suggestions.

I would like to thank Prof H. K. Mukerjee, Prof. S. S. Khare, Prof. A. K. Das, Dr. S. Dutta, Dr. A. T. Singh and all other faculty members of the Department of Mathematics, N.E.H.U., for their valuable suggestions and constructive advices during my research period. I am also thankful to all the office staffs of the Department, for extending all possible help to me.

Finally, I am grateful to my family members especially my parents, my husband Dr. Sujit Talukdar, my friends Sarujinee Gogoi, Bharat Borah, Sekhar Jyoti Baishya, Azizur Rehman, Ali Azgar and all the Research Scholars of our Department for giving me constant encouragement and providing me with unbelievable opportunities to continue my studies. I am also grateful to all my relatives, my in-laws and well wishers for their constant support and inspiration.

Also primordial to mention here is God’s blessing in all my undertaking.

Bineeta Nath
