ACKNOWLEDGEMENT

To begin with, I would like to express my sincere and deepest appreciation and gratitude to Prof. S. Rama Rao, my supervisor of my doctoral programme. He provided me the opportunity to join the Plant Biotechnology Laboratory, Department of Biotechnology and Bioinformatics, North-Eastern Hill University, Shillong and instill strength in me to the challenge of working on cytogenetics of *Abelmoschus*, a daunting and demanding task. This initiative has led me to the field of both conventional and modern cytogenetics, genetic diversity analysis and phylogenetic relationships of the genus *Abelmoschus*. His interest to work with challenging material and uncompromising nature with regard to chromosomes, has inspired me a lot. I hugely acknowledge the support, encouragement, valuable guidance, motivation, patience, enthusiasm, and immense knowledge throughout the course of my doctoral programme, which enabled me to remain firm and focused and led to accomplish this novel task. I am also indebted to him for having faith in my capabilities and allowing me to work on this subject with unlimited and constant help on all aspects necessary for the successful completion of my doctoral programme.

I am grateful to Dr. K.V. Bhat, Principal Scientist, National Research Centre on DNA Fingerprinting, National Bureau of Plant Genetic Resources (NBPGR), New Delhi; Prof. S.R. Yadav, Department of Botany, Shivaji University, Kolhapur; Dr. K. Joseph John, NBPGR, Thrissur; Dr. S.K. Malik, Tissue Culture and Cryopreservation Unit, NBPGR, New Delhi for their kind support extended towards collection and sharing of germplasm, besides their support throughout the research.

I extend my respectful gratitude to Prof. S.N. Raina, Amity University, Noida (UP) and Prof. M.S. Bisht, Centre for Science Education, NEHU for their
encouragement and valuable suggestions at various phases of this research.

I am thankful to Prof. Anupam Chatterjee, Head and Prof. S. Rama Rao (former Head), Department of Biotechnology and Bioinformatics, NEHU for providing all the required facilities. I am thankful also to all the faculty members namely Prof. K. Aguan, Dr. S.R. Joshi, Dr. A. Bhattacharya, Dr. S. Majaw, Dr. N. Chaurasia, as well as technical staff members Mr. Ajay, Mr. Sanjoy, Mr. Animos and Kong Risalin and supporting staff (Ms. Phalbis, Ms. Bala, Mr. Max Wahlang, Mrs. Preethi Nath and Mrs. Asha) for their kind support and help during the course of work.

I would like to express my special gratitude to Prof. Pramod Tandon and Prof. Suman Kumaria all from Department of Botany, NEHU for their valuable suggestions and support during the research work.

I also thank Prof. H.S. Gehlot, Head, Department of Botany, JNV University, Jodhpur, Dr. Arun Kumar, Directorate of Rapeseed-Mustard Research, Sewar, Bharatpur and Dr. Jigyasa Purohit, Mahila P.G. College, Jodhpur for their encouragement during the course of work.

I extend my sincere thanks to Dr. Jeremy Dkhar, (presently at Jawaharlal Nehru University, New Delhi) Department of Botany, NEHU for his help and suggestions during the experimentation. I am also indebted to Mr. Shakti Kumar, Research Scholar, Department of Zoology and Mr. Devender Biswal, Department of Biotechnology and Bioinformatics, NEHU for their help in the analysis part.

I am very much thankful to all my colleagues- Dr. Santosh Kumar Sharma (presently at Osaka University, Japan), Dr. (Mrs.) Rajkumari Khedasana (SRF, NBPGR, New Delhi), Ms. Anju Shamurailatpam, Ms. Marlykynti Hynniewta, Ms.
Archana Ojha, Ms. Judith Lamo, Mr. Animos Lamare and Mr. Daneil, Plant Biotechnology Laboratory, Department of Biotechnology and Bioinformatics, NEHU for their support and encouragements. Not only has it been a pleasure to work and study with all of them, but their suggestions, comments and criticisms along the way have been most helpful.

I would like to express my deep gratitude to my friends Mrs. Bidyattama, Ms. Usharani, Ms. Purnima, Ms. Khedarani, Ms. Tejeshwori, Dr. (Ms.) Sharmila, Dr. (Ms.) Manoroma, Ms. Volentina, Dr. (Ms.) Thoingambi and Dr. (Mrs.) Jogeshwori for their untiring encouragement and loving support. Thanks for being there and standing behind me whenever I needed anything and boosting up my energy whenever I was down and low. I very much enjoyed the time with you all and will forever cherish those moments in life.

I acknowledge the University Grants Commission for providing the financial assistance of UGC Non-NET Fellowship and also the UGC Research Project for awarding the JRF. I am also grateful to Indian Council of Agricultural Research (ICAR), Government of India, New Delhi, for providing financial assistance in the form of SRF through National Agricultural Innovation Project (NAIP) research (No. C2070) project entitled “Biosystematics of the genus *Vigna, Cucumis* and *Abelmoschus*” which buttressed me to perform my work comfortably.

My heartfelt gratitude goes to my dearest mom and dad, Salam Dhaneshwori and Dr. K. Priyokumar Singh, my sisters Nomita and Alice, my dear brother Deepak and Mr. Naoshekpam Amit who all have the guiding force and to all my relatives for their unremitting support and blessings through long five years, yet kept faith on me. Their emotional support and blessings throughout the course cannot be elapsed
easily. I am very blessed to have the fortune of love of my family. This work is
dedicated to you all.

I would like to thank God for His unseen presence and guidance, immense
motivation and strength bestowed upon me, and most importantly for providing me
with good health that enables me to successfully complete my doctoral programme in
the stipulated time period.

THANK YOU!

K. Merita Devi
