ACKNOWLEDGEMENTS

It is indeed a great pleasure at this very pleasant moment to humbly and sincerely thank God for giving me good health and strength with wisdom and understanding for completing and successfully brings out my research work in time. In fact, I am very much grateful and deeply indebted to acknowledge the valuable services rendering to me by different people during the course of my research work. They are a constant source of inspirations and it is because of their kind cooperation, support, help and guidance that has greatly contributed to the successful bringing out this work in time.

In facts, no word of gratitude is sufficient to express my deep gratefulness to my Supervisor Dr. Yogendra Kumar, Associate Professor, Department of Botany, NEHU and Co-Supervisor Professor Bekington Myrboh, Department of Chemistry, NEHU, Shillong for their constant help and support, guidance and encouragement. Their valuable suggestions, comments and illuminating discussion concerning to my work has given me an overall impetus from the beginning till the completion of this thesis. They are the constant sources of inspiration all throughout my work and without their support, help and guidance, the present work would not have materialised and translated into reality.

I express my deep appreciation and gratitude to Professor N. Venugopal, Head of the Department, Botany, NEHU and to Professor M. S. Dkhar, Ex-Head of the Department for readily providing facilities in the Department thereby helping me to
carry out my work smoothly and more efficiently. Also I would like to extend my sincere thanks to all the other faculty members of the Department for rendering their selfless help, support and encouragement in one way or the other and also readily allowing me to avail their Laboratory facilities whenever required for my work.

I wish to extend my sincere thanks to all the non-teaching staffs of the Department for their generous help, kind support and cooperation extended to me in different ways which serves as a source of catalyst for enhancing my enthusiasm and interest in my research work. In this regard, I would like to mention my deep gratitude and appreciation particularly to Dr. Gurung, Herbarium Curator for readily assisting and supporting me in the identification of my plants collected during survey to different villages in the district. I also wish to give my deep appreciation and express thankfulness to my associated Research Scholars and colleagues particularly Nilofer Sheikh, Patinglunlu Panmei and Starwell Paduna for readily extending their help, support and cooperation during the course of my research study.

I also duely acknowledged my gratefulness to the Department of Chemistry and Sophisticated Analytical and Instrumentation Facility (SAIF), NEHU for providing analytical facilities for my work. In this regard, I would like to particularly acknowledge my gratefulness to Dr. Muhammad Rumum and Mr. Andy Nengnong, Senior Technical Assistants, Department of Chemistry, NEHU and Mr. Millford Thangkiew, Senior Technical Assistant, SAIF, NEHU for their kind support and help in completing my analytical works in time. I also express my sincere thanks to Mr. Danny Synnah, Department of Geography, NEHU for his valuable help in drawing
the state maps of Manipur and Senapati district. Further, I sincerely thank to Singhania Printing Press, Shillong for printing and binding the thesis.

Also I gratefully acknowledge to University Grant Commission (UGC), New Delhi for giving financial assistant in the form of monthly stipend through Rajiv Gandhi’s National Scholarship for SC/ST candidates and to the administrative staffs of NEHU for timely released of my Fellowship.

Further, I acknowledge my deep gratitude to Botanical Survey of India (BSI), Eastern Circle, Shillong for allowing me to consult their library facilities and herbarium for plants identification and also assessing the progress of my research work for up gradation to SRF in UGC sponsored Rajiv Gandhi’s National Scholarship for SC/ST candidates.

My sincere thanks are also to those village elders and local herbal practitioners who readily help me to share information’s about the local names of the plants, nature of its uses and also help to obtain plant samples whenever required during my field work. Also, I am very much grateful and deeply indebted particularly to those village headmen for arranging logistic support during my field tour to different villages. Without their help and support, the present investigations would not have been completed.

Last but not the least; I sincerely express my deep gratitude and gratefulness to my beloved Wife Mrs. Kholi Henia Kaje and other family members whose incessant prayers and support, inspirations and parental care rendered to me all throughout my
research work. It is because of their whole hearted sacrifice, help and support that greatly contributed to the successful completion of my work in time.
