ACKNOWLEDGMENT

With deep sense of gratitude I would like to thank my supervisor Professor Najma Zaheer Baquer. She has been a philosopher guide and mentor to me. Her knowledge of biochemistry and enthusiasm to share it with anyone who is interested is exemplary. I am fortunate to work under her tutelage. Her affection and personal care will always be very close to my heart.

I would like to acknowledge former Dean of School of Life Sciences, Prof. S. G. Mukherjee for providing excellent facility for research. I would also like to thank Prof. Rajendra Prasad, Dean, School of Life Sciences for enhancing those facility and creating most informal atmosphere conducive for scientific research, his suggestions and eagerness to help students in distress is truly remarkable.

I would like to thank Prof. R. N. K. Bamezai, Dr. R.K. Kale and Dr. Madhubala for their suggestions and help during the course of this work.

My acknowledgements are due to all those teachers who educated me.

I am also thankful to Prof. Ali Baquer for his critical reviews. He had been very helpful and encouraging all through. Seema for her affection she showed.

I thank my lab colleagues, Dr. B. L. Gupta, Solomon for the help they rendered during experiments. Dhananjay and Jayadev Raju for their help in the course of the preparation of the manuscript and creating a nice atmosphere in lab.

My thanks to my colleagues Sona, Aparna, Meenu, Sohita and Kiran. Azam, Anirban and Mayank for their help which they always rendered. I am thankful to my friends Ramesh, Nagendra, Murthy, Abhay, Dharam, Neeraj and Snehlata for their help.

I would like to mention especially the name of my friend Pranab, who has been with me in my thick and thin without asking anything in return. Time spent with him will always have a special place in my memory.

My stay at Brahmaputra hostel will always be remembered by me because of my friends who tolerated me for such a long time.

I thank Mr. Avais Ahmad, Mr. B. A. Khan and Mr. Alexander of CIF for the help they rendered with instruments. I also thank BIC staff for their help.

I also thank Sharmaji for assistance in the lab.

Thanks are due to Dada who helped me in printing out the final draft.

I am thankful to my parents and brothers for their unending love for being very patient with me all through. Their love, affection and prayers have been an inspiration to me.
I am thankful to University Grants Commission, for financial help in the form of Junior and Senior Research Fellowships.

I acknowledge and appreciate the animals who were sacrificed during the course of this work. May their death be of some consequence.

Mohammad Abu Askar
