LIST OF TABLES

Table 1.1 Growth of employment from 1972-73 to 1987-88
Table 1.2 Annual growth rate of employment in organized and unorganized sector, 1973-87
Table 1.3 Sector-wise growth rate of employment, 1977-78
Table 1.4 Workforce participation rates for the total and above five year population by various concepts in different NSS rounds and population censuses in urban areas
Table 1.5 Age-specific workforce participation rates as per usual status in different NSS rounds, 1977-78 to 1989-90
Table 1.6 Percentage distribution of usually employed persons as per principal and subsidiary status in non-agricultural activities across employment categories in different NSS rounds, 1972-73 to 1989-90
Table 1.7 Percentage distribution of usually employed persons as per principal and subsidiary status across sectors in different NSS rounds, 1972-73 to 1989-90
Table 1.8 Unemployment rates for persons above five years of age in different NSS rounds, 1977-78 to 1989-90

Table 3.1 Industrial progress in Delhi during 1991-93
Table 3.2 Selected manufacturing units for field survey

Table 4.1 Descriptive statistics of age of the proprietor, total employees and annual business turnover of the surveyed manufacturing firms
Table 4.2 Distribution of employees of manufacturing firms by sex and by job category
Table 4.3 Distribution of workers by educational status of parents
Table 4.4 Distribution of workers by occupational status of parents
Table 4.5 Current job by age (in years)
Table 4.6 Current job by sex
Table 4.7 Current job by caste
Table 4.8 Current job by religion
Table 4.9 Current job by total number of children
Table 4.10 Current job by family size
Table 4.11 Current job by number of earning members in the family
Table 4.12 Current job by educational status of mother
Table 4.13 Current job by educational status of father
Table 4.14 Current job by occupational status of father
Table 4.15 Current job by average annual family income (in Rs. '000)
Table 4.16 Distribution of workers by educational achievements
Table 4.17 Current job by educational status of workers
Table 4.18 Current job by technical and professional educational status
Table 4.19 Distribution of workers according to labour market experience
Table 4.20 Current job by job change
Table 4.21 Current job by total labour market experience (in years)

Table 5.1 Labour market segment by name of the current job
Table 5.2 Labour market segment by nature of the current job
Table 5.3 Labour market segment by labour status of workers on current jobs
Table 5.4 Labour market segment by type of the first job
Table 5.5 Labour market segment by experience on the first job (in years)
Table 5.6 Summary statistics of total job experience on first job by labour market segment (in years)
Table 5.7 Labour market segment by number of job change
Table 5.8 Labour market segment by total job experience (in years)
Table 5.9 Summary statistics of total job experience of workers by labour market segments (in years)
Table 5.10 Sources of information about first job by labour market segment
Table 5.11 Sources of information about first job by type of first job by labour market segment (%)
Table 5.12 Means of access to first job by labour market segment
Table 5.13 Means of access to first job by type of first job by labour market segment (%)
Table 5.14 Sources of information about current job by labour market segment
Table 5.15 Sources of information about current job by type of current job by labour market segment (%)
Table 5.16 Means of access to current job by labour market segment
Table 5.17 Means of access to current job by type of current job by labour market segment (%)
Table 5.18 Type of current job by type of first job
Table 5.19 First job by current job by labour market segment
Table 5.20 Distribution of workers across segment according to labour market outcomes
Table 5.21 Distribution of workers across segments according to general, technical and professional educational status (%)
Table 5.22 Distribution of workers across labour market segments according to educational status of parents (%)
Table 5.23 Distribution of workers across labour market segment according to occupational status of parents (%)
Table 5.24 Distribution of workers across labour market segments according place of origin, sex, marital status, caste and religion (%)
Table 5.25 Distribution of workers across labour market segments according to economic background (%)

Table 6.1 Definitions of Variables
Table 6.2 Correlation matrix for secondary segment
Table 6.3 Means & standard deviations of earnings schooling and experience for the secondary segment
Table 6.4 Correlation matrix for final equation for secondary segment
| Table 6.5 | Regression results for the secondary segment (Dependent variable : log earnings) |
| Table 6.6 | Correlation matrix for primary segment |
| Table 6.7 | Means & standard deviations of earnings, schooling and experience for the primary segment |
| Table 6.8 | Correlation matrix for final equation for the primary segment |
| Table 6.9 | Regression results for the primary segment (Dependent variable : log earnings) |
| Table 6.10 | Correlation matrix for the whole sample |
| Table 6.11 | Means & standard deviations of earnings, schooling and experience for the whole sample |
| Table 6.12 | Final correlation matrix for the aggregate equation for the whole sample |
| Table 6.13 | Regression results for the whole sample (Dependent variable : log earnings) |
| Table 6.14 | Regression results for secondary segment, primary segment and whole sample (Dependent variable : log earnings) |
