ACKNOWLEDGEMENTS

It is a pleasure to acknowledge the contributions of a number of people who helped me in the preparation of this thesis.

I have been aided and stimulated by interchange of ideas with my supervisor, Dr.(Mrs.) Sushila Singhal. I am highly indebted to her in every respect. I have no words to acknowledge her tireless efforts in checking of the drafts.

I extend gratitude to our chairperson, Dr.(Mrs.) Karuna Ahmad for her invaluable suggestions and much needed co-operation.

I thankfully acknowledge the assistance provided by the University Grant Commission in the form of Senior Research Fellowship. I am grateful to the staff of libraries of JNU, NCERT, NIEPA, IGNOU and ICSSR. Special thanks go to the students of IGNOU, Utkal University and Delhi University for being co-operative during data collection.

I cherish the inspiration provided by my dear friends like Gayatri, Arati, Ajita, Rachna, Namita Apa and so many others. Likewise of great importance is the contribution of my parents, elder brother, Bibeka and other family members who have been always there for boosting up of my self-worth at the moment of work paralysis.
I owe a very special debt of gratitude to my husband, Mr. Sudhir Dash, for his tolerance, encouragement and unconditional support and for putting up with my swinging moods as the deadlines approached. I pay a special tribute to some of his fine dispositions.

Due thanks are given wherever ideas were borrowed. At the end, I am grateful to Mrs. T. Kameswari for typing this thesis with skill and patience.

Mamata Das.
