# LIST OF TABLES

1. Distribution of Sample by Region and University 87
2. Principal Component Factor Matrix for Content Characteristics Scale 104
3. Varimax Rotated Factor Matrix for Content Characteristics Scale 105
4. Principal Component Factor Matrix for Context Characteristics Scale 106
5. Varimax Rotated Factor Matrix for Context Characteristics Scale 107
6. Principal Component Factor Matrix for Approaches to Studying Inventory 108
7. Varimax Rotated Factor Matrix for Approaches to Studying Inventory 110
8. Means, SDs and t' Values for Gr. I and II; Gr. III and IV; Gr. I and III & Gr. II and IV on Learner Characteristics 120
9. Means, SDs and t'Values for Gr. I and II; Gr. III and IV; Gr. I and III & Gr. II and IV on Content Characteristics 123
10. Means, SDs and t'Values for Gr. I and II; Gr. III and IV ; Gr. I and III & Gr. II and IV on Overall Impact 127
11. Means, SDs and t'Values for Gr. I and II; Gr. III and IV ; Gr. I and III & Gr. II and IV on Context Characteristics 130
12. Means, SDs and t'Values for Gr. I and II; Gr. III and IV; Gr. I and III & Gr. II and IV on Perceived Barriers to Learning 134
13. Means, SDs and t'Values for Gr. I and II; Gr.III and IV; Gr. I and III & Gr. II and IV on Deep Approaches to Learning 136
14. Means, SDs and t'Values for Gr. I and II; Gr.III and IV; Gr. I and III & Gr. II and IV on Surface Approaches to Learning 138
15. Means, SDs and t'Values for Gr. I and II; Gr. III and IV; Gr. I and III & Gr. II and IV on Strategic Approaches to Learning

16. Means, SDs and t values for Gr. I and II; Gr. III and Gr. IV; Gr. I and III & Gr. II and IV on Academic Performance

17. Inter-Correlations Among Learner Characteristics, Approaches to Learning and Academic Performance for Group-I (N = 68)

18. Inter-Correlations Among Content Characteristics, Approaches to Learning and Academic Performance for Group-I (N = 68)

19. Inter-Correlations Among Context Characteristics Approach to Learning and Academic Performance for Group-I (N = 68)

20. Step-Wise Multiple Regression Analysis with Approaches to Learning [Deep, Surface and Strategic] as Dependent Variable for Group I (N=68)

21. Step-Wise Multiple Regression Analysis with Academic Performance as Dependent Variable for Group =I (N=68)

22. Inter-correlations among Learner Characteristics, Approaches to Learning and Academic Performance for Group II (N = 64)

23. Inter-correlations among Content Characteristics, Approaches to Learning and Academic Performance for Group =II (N = 64)

24. Inter-Correlations among Context Characteristics, Approach to Learning and Academic Performance for Group = II (N = 64)

25. Step-Wise Multiple Regression Analysis with Academic Performance as Dependent Variable for Group =II (N=64)

26. Step-Wise Multiple Regression Analysis with Approaches to Learning [Deep, Surface and Strategic] as Dependent Variable for Group II (N=64)
27. Inter-correlations among Learner Characteristics, Approaches to Learning and Academic Performance for Group III (N = 32)

28. Inter-correlations among Content Characteristics, Approaches to Learning and Academic Performance for Group III (N = 32)

29. Inter-correlations among Context Characteristics, Approaches to Learning and Academic Performance for Group III (N = 32)

30. Step-Wise Multiple Regression Analysis with Approaches to Learning [Deep, Surface and Strategic] as Dependent Variable for Group III (N=32)

31. Step-Wise Multiple Regression Analysis with Academic Performance as Dependent Variable for Group III (N=32)

32. Inter-correlations among Learner Characteristics, Approaches to Learning and Academic Performance for Group IV (N = 36)

33. Inter-correlations among Content Characteristics, Approaches to Learning and Academic Performance for Group IV (N = 36)

34. Inter-correlations among Context Characteristics, Approaches to Learning and Academic Performance for Group IV (N = 30)

35. Step-Wise Multiple Regression Analysis with Approaches to Learning [Deep, Surface and Strategic] as Dependent Variable for Group IV (N=36)

36. Step-Wise Multiple Regression Analysis with Academic Performance As Dependent Variable for Group IV (N=36)
