ACKNOWLEDGEMENT

With a deep sense of respect and affection I express my gratitude and indebtedness to my supervising professors Dr. P. L. Vijayammal, Dept. of Biochemistry, University of Kerala and Dr. K.T. Augusti, School of Medical Education, Mahatma Gandhi University, for their scholarly guidance and inspiration towards the timely completion of this work.

Let me also record my sincere thanks towards the whole-hearted cooperation and help extended to me by professors Dr. R. Kaleysaraj, Emeritus Scientist (ICMR) and former Head of the Dept., Dr. P.R. Sudhakaran, present Head of the Dept. and Dr. C.G. Jolly, Veterinary doctor, Dr. A. Helen, SRF, other faculties, staff and researchers of the Department.

My thanks are also due to Dr. P.K. Rajan and Dr. K.N. Rajasekharan, Dept. of Chemistry, Dr. Girija, Pathologist, scientists of the Central Drug Research Institute (Lucknow) and the Director, Doctor’s Diagnostic Research Centre, Thiruvananthapuram for the assistance rendered at various stages of the study. I am extremely thankful to the librarians of CDRI and CIMAP (Lucknow), NML and AIIMS (New Delhi) and the Kerala University Library. I am very much indebted to the IT Library of University Campus for providing the Internet services.

Above all, I bow my head before God the almighty with all humility for enabling me to write this line here.

Finally, I am thankful to the Science and Technology Dept. and Indian Council of Medical Research for the financial assistance provided.

KRISHNAKUMAR. K
