

## ACKNOWLEDGEMENT

The author feels great pleasure in regarding of obligation and gratitude to Dr. R.V. Pandey, Department of Chemistry, S.C. P.G. College, Ballia (U.P.), India for initiating him to this field of research and for his helpful guidance and constant encouragement during the course of this investigation and Head, Department of Chemistry, S.C. P.G. College, Ballia providing necessary departmental facilities and to Dr. H.N. Pandey and Dr. Arjun Kumar Singh Department of Chemistry S.C. College for his valuable discussion and suggestions throughout present investigation. No words are potent enough to pay may sincere thanks and regards to the Principal, S.C. P.G. College, Ballia (U.P.) India.

I am highly thankful to director, CDRI, Lucknow (U.P.) India for regarding elemental analysis, IR and NMR spectra of the synthesis compounds.

Dr. R.M. Mishra, Dr. D.V. Singh Sanjay Kumar Singh, Rishabhdev Singh, and Mr. D.S. Tripathi my research colleagues for their help and kind co-operation at various stages of the research work.

I am overwhelmed with rejoice to avail opportunities to evince my profound sense of beloved whole family members Ramchin Singh (Father-in-law), Arvind Kumar Singh, Sanjeev Kumar Singh & Sunil Kumar Singh (Brothers) for this internally help, inspiration, love, affection, encouragement without which I would not reach upto this stage. But at last I cannot ignore my beloved husband Devendra Singh without their co-operation this research could not be possible.

*Sarika Singh*
