Acknowledgements

I offer my sincere gratitude to my research supervisor, Dr. S. Karuppuchamy, Associate Professor and Head (i/c), Department of Energy Science, Alagappa University, Karaikudi, who has supported me throughout my research work with his insightful comments, esteemed supervision, incessant support and immense knowledge. His tremendous help and step by step guidance helped me to go through all the requirements with an organized plan. His applauds and appreciations in each stage of my experimental work motivated me and I really enjoyed the freedom given to me during the entire period of my research. His positive thinking and decision making inspired me and I feel so much stronger because of him.

I record my heartfelt and sincere gratitude to Dr. Y. Andou, Associate Professor, Kyushu Institute of Technology, Japan for extending constant encouragement and fruitful advice during the research work.

I express my great sense of gratitude to Dr. M. Sathish, Functional Materials Division, CSIR-Central Electrochemical Research Institute, Karaikudi for his support during the research work.

I am grateful to Dr. A. Arun, Associate Professor and Head (i/c), Department of Microbiology, Alagappa University, Karaikudi for his constant support.

I am highly indebted to Dr. K. Gurunathan, Professor and Head, Department of Nanoscience and Technology, Alagappa University, Karaikudi for his valuable suggestions, encouragement, advice and support during the research work.

I extend my special thanks to my research colleagues Miss. C. Brundha, Miss. M. Thamima, Miss. J. Maragatha, Mrs. M. Nagalakshmi, Mr. M. Selvamurugan, Mr. G. Sivaprakash, Mr. K. Mohan Rasu, Mr. G. H. Dhinesh and Mr. R. Satheesh
Murugan, for their contributions in their unique way. I am extremely indebted to them for their appreciation and support that had helped my research to progress all along the way. The wonderful moments we had together and the fun as a team will always be etched in my memory.

I am grateful to Mrs. K. Santhi, Research scholar, Department of Chemistry, Alagappa Government Arts College, Karaikudi for her encouragement, advice and support during the research work.

I am thankful to Mr. K. Subramani, Research scholar, Functional Materials Division, CSIR-Central Electrochemical Research Institute, Karaikudi for his support during the research work.

I wish to express my sincere thanks to Dr. K. Punitha and Dr. C. Karthikeyan, Department of Energy Science, Alagappa University, Karaikudi for their enthusiastic support and help during the research work.

I record my heartfelt thanks to Department of Physics and Department of Industrial Chemistry, Alagappa University, for providing the necessary facilities to complete the thesis work successfully.

I wish to acknowledge the Department of Atomic Energy – Board of Research in Nuclear Science (DAE-BRNS), Government of India for the financial support.

Last but not the least, my heartfelt gratefulness goes to my wonderful parents, brother, without them I would not have able to achieve success in life.
