My special thanks to ALL STAFF OF THE DEPARTMENT OF MATHEMATICS, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore, for their help and support during my research. I am indeed fortunate and happy to be associated with my co-scholars of the Department of Mathematics.

All my thanks in humility towards my dad Mr. M. KRISHNASAMY, mom Mrs. R. PADMAVATHY, brother Mr. K. PRABHU and Mrs. INDIRANI PRABHU who have rendered their constant support for being a backup in encouraging me and in moving forward towards my education. They have
always been a strong fortress where giving up was never a choice in my
dictionary.

Without the centripetal force, my dear husband Mr. M. SHANMUGASUNDARAM without his deep rooted care and revered support, Ph.D. as a course would not have been “a dream come true” in reality. During the course, my kids S. RAKHUL and S. ROHIT have sorely missed my care and attention. They have sacrificed so much and in not being a distraction during the period. My trillion thanks to my family as the quote, “the bond that unites us, is stronger than the barriers that separate us” stays proven.

Humble thanks to my father-in-law Mr. K. MURUGESAN and mother-in-law Mrs. M. SHANTHI for their moral support and prayers which gave me strength to fulfill my ambition. I extend my appreciation to my brothers-in-law, sisters-in-law, friends and all unseen hands for their timely help during the entire research process.

Last but not the least I extend a word of thanks to Mrs. D. SHOBHA PAI of M/s. Fast Forward, for their tireless effort in typing this research work victoriously.
