List of tables

Table 1. Cellular targets of the viral-encoded miRNAs.

Table 2. Viral targets of the viral-encoded miRNAs.

Table 1.1 Virus-encoded precursor and mature miRNAs.

Table 1.2 Sequences of miRNA probes used for Northern blotting.

Table 1.3 Details of the predicted BmNPV-encoded miRNAs.

Table 1.4 Sequence of the forward primers used for poly(A)-tailed RT-PCR.

Table 2.1 Sequences of miRNA duplexes and LNAs used in this study.

Table 2.2 Sequences of primers, probes and oligonucleotides used in this study.

Table 2.3 The putative targets of the selected four host miRNAs.

Table 3.1 Sequences of primers and probes.

Table 3.2 Details of the predicted bmnpv-miR-3 viral targets.

Table 4.1 Sequences of the primers.

Table 4.2 The details of the host miRNAs targeting seroins.
