

Acknowledgements

First and the foremost, I would like to thank almighty Allah, by the blessings and guidance of whom I am able to accomplish my PhD.

I am indebted to my parents for their unceasing encouragement and support throughout my life. This thesis is dedicated to my parents who have given me the opportunity of an education from the best institutions. A special thanks to my brothers for their love and emotional support.

I owe my sincere and cordial gratitude to Dr. Sangita Mukhopadhyay, my research supervisor, for her patient guidance, enthusiastic encouragement and useful criticisms throughout my research work. She inspired me greatly and her willingness to motivate me contributed tremendously in the development of passion for science in me. Her soft spoken attitude and caring nature has always been a great support. I feel privileged to work with such a nice human being and an excellent supervisor.

I would like to express my sincere gratitude to Director of CDFD Dr. J. Gowrishankar for providing all the research facilities and an excellent scientific environment in the institute. My grateful thanks are also extended to previous Dean Academics at CDFD, Dr. Shekhar C. Mande and present coordinator academic affairs Dr. Sanjeev Khosla for being very encouraging and always helpful. I am thankful to the Vice Chancellor and Registrar at Manipal University for permitting me to register as a PhD graduate student. The financial assistance received from CSIR and CDFD as fellowships and national and international travels and other expenses is duly acknowledged.

I would like to express my very great appreciation to my doctoral committee members, Dr. Sunil K. Manna and Dr. Gayatri Ramakrishnan for their valuable and constructive suggestions on my project. Thanks to all the scientific staff at CDTD for providing healthy scientific environment. This work would have not been possible without the help extended from all support staff from different sections like Bioinformatics, NQTF, Administration, Accounts, EMPC, Stores and Purchase, Library, Transport.

I am particularly thankful to Dr. Sudip Ghosh who has always extended help in the use of his lab and animal house facilities at NM. I wish to acknowledge Dr. Gobardhan Das for his friendly help and assistance to carry out animal experiments at ICqEB New Delhi.

All the LMCB members both present and past have contributed immensely for my personal and professional time in CDTD. I am highly thankful to my seniors Noor, Kaiser, Shiny, Sreejit, Khalid for their help during my initial years at CDTD and thereafter. My whole hearted thanks to past lab members Ghous, Akhilesh, Chaitanya, Arghya and present lab members Atul, Gaurango, Parul, Vishwanath, Komal, Shruti, Dr. Asma, Dr. Philip and Dr. Nagendra, Rahila, Sushiharan for an exciting and fun lab environment together sharing good time whose memories I am going to cherish throughout my life. Special thanks to Khalid and Asma for the help and critical review and suggestions given during my thesis correction. I appreciate Zameer for his assistance in my day to day work in the lab and bringing delicious home-made food. My sincere thanks to Swetha for her help in handling all the official formalities. I would like to offer my special thanks to Niteen for technical assistance in FACS experiments and enthusiastically helping in every issue from arranging the materials for experiments to organising parties.

Thanks to Savithri Mam for her unconditional support, affection and care.

My heartfelt thanks to all my batch mates for making the coursework enjoyable and the time spend with them memorable. A big thanks to Rachita for patiently listening to me and supporting me throughout my stay in CDTD. I would like to thank all the past and present members of CDTD family with whom I enjoyed taking part in scientific as well as non-scientific activities.

Words limit emotions and expressions as I acknowledge my friend Nahid because of whose constant efforts I came to Hyderabad. Thank you Nahid for always being there for me. My wholehearted thanks to my Aligarh mates, Adeel, Zuhair, Mubashshir, Aanisa, Ghazala, Zahid, and Abdullah for the encouragement, love, support and care provided by them. The time spent with you guys has made good memories that will always be with me as a treasure.

I owe my special thanks to my uncle Mukhtar who has always been a constant source of inspiration and encouragement since my childhood.

There have been many other people more than worth mention in these two pages. My sincere apologies to all of you who deserved to be talked about in this acknowledgement but could not be because of time and space constraint. It is an honor for me and I feel immensely pleased to thank all of you who made this thesis possible. I am more than humbled by your generosity and your support and blessings are duly acknowledged. I thank you all.
