ACKNOWLEDGEMENT

A journey is easier when you travel together. Interdependence is certainly more valuable than independence. This thesis is the result of my work whereby I have been accompanied and supported by many people. It is a pleasant aspect that I have now the opportunity to express my gratitude for all of them.

In the first place I would like to record my gratitude and indebtedness to my supervising teacher, Dr. M.C. Subhash Peter, Reader in the Department of Zoology of the University of Kerala for his supervision, advice, guidance, timely suggestions, constructive criticisms and immense patience, which formed the basis of the successful completion of my work. I am also thankful to him for providing literature from his valuable collection. His truly scientist intuition has made him as a constant oasis of ideas and passions in science, which exceptionally inspire and enrich my growth as a researcher. His wide knowledge and logical way of thinking have been of great value for me. His understanding, encouraging and personal guidance have provided a good basis for the present thesis.

I am thankful to Prof. J. Agnes, Former Head of the Department of Zoology, FMN College, Kollam, for providing the laboratory and library facilities and support to carry out this research work. I extend my heart-felt thanks to Dr. J. Ignatius, Senior Lecturer, Selection grade, Department of Zoology, FMN College, Kollam, for his valuable suggestions and help.

I have great pleasure to acknowledge Dr. Valsa S. Peter, Lecturer Selection Grade, Department of Zoology, FMN College, Kollam for her involvement in my work and also for her constant encouragement and precious advice.

I am also thankful to the former Principals Dr G. Henry and Mr. Felix and the present Principal Dr. Sr. Soosamma Kavumpurathu, and the members of the office staff, FMN College, Kollam for their help in providing necessary facilities
throughout the period of my work. The teaching and non-teaching staff of the Department of Zoology, FMN College, Kollam is warmly acknowledged.

I am greatly obliged to Professor Oommen V. Oommen, former Dean of Science and the Head of the Department of Zoology of the University of Kerala, for his valuable advice and providing library and laboratory facilities during the period of this investigation.

I would also thank all the faculty members, Prof. D. Muraleedharan, Prof. Mathew M. Oommen, Mrs. Jeejakumari, and Dr. G. Prasad of the Department of Zoology of the University of Kerala, for their suggestions during the course of my work.

I take this opportunity to acknowledge the unstinted and unfailing help of my colleague and friend, Dr. Leji J who has contributed greatly to the successful completion of my research work. I reserve a word of gratitude to the former research scholars Dr. Saya B. Anand and Dr. Elizabeth K. Joshua and Dr. Sheela. I convey special acknowledgement to Ms. Rejitha for her indispensable help to complete my work. I would also express my thanks to Ms. Nimta George for her help to complete the thesis. Words fail me to express my appreciation to my dearest friends Mrs. Sajeena, Mrs. Lekshmi, Ms. Sumam, Mrs. Vijayasree and Ms. Divya and for their sincere help, valuable advice and co-operation.

With immense gratitude I acknowledge the kind support received from Mrs. Divya Grace, Ms. Nisha, Mrs. Rejita, Ms. Jilna, Ms. Aswathy, Ms. Shiny and Ms. Jyothi during the completion of this thesis. Special thanks are due to the research scholars, Mr. Sreejith P, Ms. Divya L, Mr. Beyo R.S, Ms Manju and Mr. Dileep Kumar for the sincere help I received from them.

I owe my thanks to the former librarian, Mrs. Jayakumariamma and Mrs. Vasudha and the present librarian, Mrs. Sunaja, Librarian, Department of Zoology, Kariavattom, for providing library facilities. I also wish to acknowledge all the office staff of the Department of Zoology in the University of Kerala, Kariavattom.
sincere thanks are due to Dr. P. Latha and staff of the Supreme Diagnostics & Research Centre, Kollam, for the analysis of some of the samples. I am thankful to the UGC, New Delhi for the financial and infra structural support through the MRP (coconut husk retting) and the SAP facility.

I express my heartfelt gratitude to Mr. Manoj S., Printo Media, Attingal for the technical support I received for the completion of my thesis.

Finally, I would like to acknowledge the support of my family. My parents deserve special mention for their inseparable support and prayers. My Father, V. Gangadharan, in the first place is the person who put the fundament my learning character, showing me the joy of intellectual pursuit ever since I was a child. My Mother, Sreedevi, is the one who sincerely raised me with her caring and gently love. Brown and Bimi Sarin, thanks for them being supportive and caring siblings.

I could not have completed this thesis without the patience and the moral support of my husband, Joy Sambasivan. Our loving kids Jofin and Jifin, adjusted a lot for completing this work. I would also thank my late father-in-law and mother-in-law for their thoughtful support.

I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention personally one by one.

Above all, I submit this work to the Grace of God Almighty without whose blessings nothing is possible.

Babitha G. S.
