ACKNOWLEDGEMENT

First and foremost I thank God for His grace and blessings. I also feel greatly indebted to my wife (Sonali) and daughter (Adrija) who patiently accepted and afforded to have me away, for my studies, even at times when they needed me the most.

I extend my deep respect and gratitude to my guide Prof. Samar Sensarma, Professor, Department of Computer Science and Engineering, University of Calcutta for helping me in the research work that culminated in the present thesis and will remain ever grateful for allowing me to associate his esteemed name with this.

My special thanks to my father Niranjan Kumar Basuli and mother Shila Rani Basuli, Brothers Subhendu, Dibyendu, Utpalendu and Sharadindu, Sister-in-law Supriya and Swagata, nice Bipasha and also nephews Aritra and Diptarshi who showed great interest and support throughout the period of my Ph.D. work.

A big thank you to my friend Saptarshi Naskar, Asst. Professor, Department of Computer science, Sarsuna College, University of Calcutta. And also acknowledge Debojit Sensarma and Subhasish Banerjee, Department of Computer Science and Engineering, University of Calcutta.

I also express my whole hearted thanks and respect to all the Professors of Department of Computer Science and Engineering, University of Calcutta and especially to those members of my doctoral committee for their input, valuable discussions and accessibility.
I also acknowledge Surendranath Evening College and West Bengal State University for support during the research work.

I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention personally one by one.

I gratefully acknowledge University Grant Commission, Government of India for financial support that made my Ph.D. work possible.

Krishnendu Basuli
