Acknowledgement

I owe my deepest gratitude to my Ph.D. guide and mentor, Dr. Sumantra Das (Chief Scientist), whose encouragement, guidance and support from initial to final level in all respects enabled me to develop an understanding of the subject towards successful completion of the thesis work. Moreover, I am grateful to him for all kind of supports, specially his valuable advice towards research findings, presentation of research work in national and international conference and writing of the manuscript for the publication. Sir has always available to clarify my doubts despite his busy schedule and he understood, pampered and molded me to develop the most important research demand, perseverance, which was subdued in me. Apart from this, I learnt a lot from him, which I am sure, will be useful in different stages of my life for bringing my dreams into reality. I wish to convey my most sincere regards to my sir.

I would like to give special thanks to Council of Scientific and Industrial Research (CSIR), Govt. of India for providing me five years research fellowship for completion of my Ph.D. work.

I would also like to thank Prof. Siddhartha Roy (Ex-director) and our present director, Prof. Samit Chattopadhyay for providing the facilities to carry out the research work in this prestigious institute enriched with modern scientific facilities.

My sincere gratitude to Dr. Pranab Kumar Sarkar (INSA Fellow, Neurobiology division, IICB); Dr. K. P. Mohanakumar (Ex-Chief scientist, Cell Biology and Physiology Division, IICB); Dr. Sib Sankar Roy (Sr. Principal scientist, Cell Biology and Physiology Division, IICB); and Dr. Uday Bandopadhayay (Principal scientist, Infectious Disease and Immunology Division, IICB ); Dr. Subhas C. Biswas (Sr. scientist, Cell Biology and Physiology Division, IICB ); Dr. Aditya Konar ( Head, Animal House) for their invaluable suggestions and help during my thesis work.

My acknowledgement would not be complete without the special mention of my lab mates Kusumikadi, Aninditadi (Sr.), Aninditadi (Jr.), Deepakda, Ayantika, Tuhin who have taught me the lab culture and inspire me to faces all the good as well as the worst situations. They share all ups and downs in my personal and professional life during the days of Ph.D. Along with this, I am also thankful to my junior Subhalakshmi, for cheering me up during the last stressful period of writing of manuscript and thesis. I am also thankful to Dipayan, Priyankar, Pampa for sharing troubleshoots of the experiments. I would like to express my
sincere thanks to all my seniors and colleagues (not mentioning any name) from other lab who always support me during my Ph.D.

I express my heartiest thanks to all staff members of IICB for their assistance and cooperation with me during the Ph.D. tenure.

Lastly, I express my deepest sense of gratitude to my family members, my parents and in-laws, specially, my husband, Dr. Arnab Banerjee, who have always provided major inspiration, tolerate all my depression and excitement, support me in all the circumstances. Lastly, my little son, Aarohan, without his consideration for leaving him for the whole day, I was not be able to complete my Ph.D.

Thank you.
