ACKNOWLEDGEMENT

With heart filled gratitude I thank my Lord and Saviour for bestowing His grace and mercies to move a step ahead in my pursuit for knowledge.

I would like to express my deep sense of gratitude to my most respected guide Dr. S. Gunasekaran, Registrar, Periyar University, Salem, for giving the opportunity to be his student. But for his intellectual guidance, constant encouragement and profound good will through out this endeavor of mine, I wouldn’t have accomplished success. My profound thanks for his fatherly care, immense patience and soul touching humility which made the working environment warm and cordial. Also for setting up a great role model on how to work hard to achieve our goals. I owe it all to his motivating and inspiring presence.

My sincere thanks to the Management of Sri Chandrasekharendra Saraswathi Viswa Mahavidyalaya (SCSVMV), Enathur, Kanchipuram, for enabling me to carry out this doctoral programme in their esteemed university. I would like to thank Prof. Dr. C.V. Vaidyanathan, Vice Chancellor, Prof. Dr. M.S. Lakshmi Narayanan, Registrar, Mrs. S. Nagalakshmi, Controller of Examinations, Prof. Dr. A. Jayalakshmi, Dean (Faculty of Science), and Prof. Dr. K.P.V. Ramana Kumar, Dean (Faculty of Management Studies) of SCSVMV University, for their support and good will throughout. My heartfelt thanks to Dr. K. Venkatramanan, Head, Dept. of Physics, SCSVMV for all
his timely help and great support. My thanks are due to all the staff members of the Dept. of Physics, SCSVMV for their encouragement and support.

I would like to offer my sincere gratitude to **Dr. T.S. Renuga Devi**, Assistant Professor, PG Dept. of Physics, Women’s Christian College, Chennai, who was responsible for sowing the seeds of this doctoral programme, nurturing it and enabling me to complete it with a sense of fullness and satisfaction. It was through her constant motivation and encouragement that most of my research findings could be published in journals, for which I owe my gratitude to her. She was ready to help, be it in offering suggestions to improvise papers, presentation of research findings in conferences or in proof reading my thesis, her spontaneity of thoughts and brilliant ideas has brought the best out of me and in fact I lack words to thank her.

My heartfelt thanks to **Dr. Ridling Margaret Waller**, Principal, Women’s Christian College, Chennai for motivating and permitting me to take up research on part time basis. Her timely advice were encouraging and morally uplifting to walk through this phase with strength and courage.

It is my bounden duty to thank **Dr. Pamela Sahayadass**, Coordinator of the self financed courses, Women’s Christian College, Chennai for all her kind words of encouragement and support. My sincere thanks to the management of my college for permitting me to venture into this task.
My sincere and heartfelt thanks to Dr. Mercy Rajasekar, Reader and Head, Dept. of Physics, Women's Christian College, Chennai for her kind words of encouragement and support.

My thanks are due to Ms. S. Lakshmi Devi, Head, Post Graduate Dept. of Physics, Women's Christian College, Chennai for her great support and benevolent words of encouragement. Special word of thanks to my beloved friends and colleagues, Ms. D. Hannah and Ms. R. Sharmi for upholding me through their prayers and being with me through thick and thin.

My bountiful thanks to my well wisher and senior researcher of the ISPA team, Dr. S. Kumerasan for enabling me to chose and analyse the problem related to semi-empirical and DFT studies. He was a guiding stone in every major aspect of my research. My gratitude to Mr. G. R. Ramkumaar, of Pacahiyappa's College, Chennai, for extending timely help for performing the DFT analysis. My special thanks to Dr. D. Sathyababu of Railway Hospital, Perambur and Dr. S. Seshadri of ISPA team for providing me an insight into the biomolecule homocysteine and explaining in detail regarding the same.

I thank the authorities of SAIF, IIT, Chennai, CECRI, Karaikudi and Lister Metropolis Laboratory and Research Centre Pvt. Ltd., for allowing me to use their lab facilities. I thank Mr. B. Muthukumar of Dr. Ceelal Analytical lab for enabling me to carry out chromatographic analysis with ease and comfort.
I thank the Deans and Doctors of Cardiac Unit, Railway Hospital, Perambur, Dept. of Nephrology, Govt. Royapettah Hospital, Dept. of Cardiology and Dept. of Neurology, Government General Hospital and Deepam Hospital, Chennai for enabling me to interact with the patients and collect the blood samples. Especially a special word of thanks to staff nurse Ms. M. Janet for helping to keep track of the patients for efficacy studies.

My heartfelt thanks to my husband Mr. M. Justine Samuel and Mother-in-law for rendering unconditional support, care and encouragement during this entire period. I place words in appreciation of my younger brother who shouldered my research responsibilities in all aspects, from the day of my registration till submission. Last but not the least I thank my Father and Mother for their prayers, support and encouragement. Once again I thank God for giving them to me.

A. Bright
