LIST OF TABLES

Table 1: Details of various tools used in the study along with the rationale for using them………………………………………………………… 122

Table 2: Description of the ten participating schools inclusive of their geographical zone, type and section class size… 128

Table 3: Demographic details of the ten participating schools………………………………………. 129

Table 4: Demographic details of the ten participating school for the variables – ‘Number of Friends’ and ‘Type of Student’… 131

Table 5: Frequency scores and chi square values of both the Intervention and Control Schools on various demographic variables…… 146-147

Table 6: Schedule followed for administering the SSVPP Curriculum at the Intervention school…………………………………… 157-159

Phase 1

Table 7: Mean and SD scores for the variables measured in both all-boys and co-ed schools……………… 170

Table 8: Correlation co-efficient values of the variables under Attitude to Bullying and Experience of Bullying…….. 172
Table 9: Correlation co-efficient values between Number of years in present school with Experience of Bullying

Table 10: Correlation coefficient values for Number of years in present school with Attitude towards bullying

Table 11: Correlation coefficient values for Academic success with Experience of bullying

Table 12: Correlation coefficients for Academic success with the indices of Attitude towards bullying

Table 13: Mean, SD scores and F values for Order of birth for the different indices of bullying

Table 14: Mean, SD scores and F values for Order of birth for the different indices of attitude towards bullying

Table 15: Mean SD scores and F values for Type of family for the different indices of experience of bullying

Table 16: Mean SD scores and F values for Type of Family for the different indices of Attitude towards bullying
Phase 2

Table 17: Mean, SD and ‘t’ values of the Intervention and Comparison groups 191

Table 18: Mean, SD and t scores of the Intervention school and the Control school post assessment 193

Table 19: Mean, SD and t scores for Pro-social behavior amongst students in the Intervention and Control school post assessment 196

Table 20: Mean, SD and ‘t’ scores for the variables measuring Bully Victim incidents in the Intervention School and the Control school 197

Table 21: Mean, SD and t scores of the Intervention school both pre and post assessment 200

Table 22: Mean, SD and t scores for Pro-social behavior amongst students in the Intervention school both pre and post assessment 202

Table 23: Mean, SD and ‘t’ scores for the variables measuring Bully Victim incidents in the Intervention School during pre and post training assessments 203

Table 24: Mean, SD and t scores of the Control schools for both pre and post assessment 205
Table 25: Mean, SD and t scores for Pro-social behavior amongst students in the
Control school both pre and post assessment……………….  206

Table 26: Mean, SD and ‘t’ scores for the variables measuring Bully Victim incidents
in the Control School………………….  207

Phase 3

Table 27: Mean, SD and t scores of the Intervention school and the Control schools
post follow up………………….  210

Table 28: Mean, SD and t scores for Pro-social behavior amongst students in the
Intervention and Control school post follow up……..  212

Table 29: Mean, SD and ‘t’ scores for the variables measuring Bully Victim incidents
in the Intervention School and the Control schools……  213

Table 30: Mean, SD and t scores of the Intervention school between post intervention
and at follow up assessment……  216

Table 31: Mean, SD and t scores for Pro-social behavior amongst students in the
Intervention school between post intervention and at follow up assessment…  217

Table 32: Mean, SD and ‘t’ scores for the variables measuring Bully Victim
incidents in the Intervention School………………….  218
Table 33: Showing the Mean, SD and t scores of the Control schools, between post intervention and at follow up assessment.............. 221

Table 34: Mean, SD and t scores for Pro-social behavior amongst students in the Control schools between post intervention and at follow up assessment...... 223

Table 35: Mean, SD and ‘t’ scores for the variables measuring Bully Victim incidents in the Control Schools 224
