ACKNOWLEDGEMENTS

First and foremost, I would like to thank to Almighty Allah for providing me an opportunity for getting chance to this work underway and for letting me be in the midst of good and kind people. This thesis reminds me of the great experience and learning that I attained during the research work carried out at CSIR-Indian Institute of Integrative Medicine, Jammu.

Gathering of research work and materialization of thesis is not possible without the immeasurable help and suggestions from many people. I humbly acknowledge them who gave their support directly or indirectly in all kinds of way. I would like to show my gratitude and they are too many to thank individually.

I am heartily thankful to my supervisor, Dr. P. N. Gupta, Senior Scientist, Indian Institute of Integrative Medicine (IIIM) (CSIR), Jammu for providing me this opportunity and whose encouragement, supervision and support from the preliminary to the concluding level enabled me to develop an understanding of the subject. I have sincerest sense of thankfulness for encouraging and providing freedom during the planning and execution of experiments. His critical evaluation and opinion thereafter enhanced my scientific curiosity.

I express my sincere thanks to Dr. Ram A. Vishwakarma, Director, Indian Institute of Integrative Medicine (IIIM) (CSIR), Jammu for providing all the administrative help and necessary facilities for the performance of this thesis work.

I would like gratefully acknowledge Dr. Gurdarshan Singh, Dr. Dilip M. Mondhe, Dr. Surinder Koul, Dr. Shashank K. Singh, Dr. Surjeet Singh, Dr. Balkrishan Chandan, Dr. Parduman R. Sharma, Sh. Manoj Tikoo and Sh. Rajinder Gupta for their support and helping throughout the pursuit of this research project.

My sincere thanks are due with Dr. Jatinder Singh, Professor & Head, and Dr. Prabodh K. Sehajpal, Professor & Ex-Head and all other faculty members of Department of Molecular Biology and Biochemistry, Guru Nanak Dev University, Amritsar, for their support and co-operation.
I would like to acknowledge and thank to Indian Council of Medical Research (ICMR), New Delhi for providing research fellowship as Junior Research Fellow (JRF), which helped throughout the project. I also thank to Council of Scientific and Industrial Research (CSIR), New Delhi and Department of Science and Technology (DST), New Delhi for providing fund to pursue my project.

I would like to extend my affectionate thanks to Mr. Vaibhav Khare, Mr. Ravindra Kumar Dhar Dubey, Mr. Ankit Saneja, Mr. Ashok Kumar, Mr. Mubashir, Ms. Arem Qayum and Ms. Mytre Koul for their valuable suggestions and continuous help regarding this work.

Last but not least, I would like deepest thanks to my parents for all their love and encouragement. They were always there to hold my hand in all walks of my life. There are no words to express my gratitude to them for lifting me up till the phase of life.

Finally, my sincere thanks to scores of friends, colleagues and other persons who helped and supported me with their valuable contributions throughout research work. Even if inadvertently some name must have been left out, I can only say that their contributions will not go into waste, as this work of research is meant to benefit humankind in some form or the other.

Md. Noor Alam
