ACKNOWLEDGEMENT

"A teacher affects eternity; he can never tell where his influence stops......."  
Henry Adams

Accomplishment of any work requires the effort and support by many people. It would be sheer ignorance and arrogance to believe that any work or research can be an individual endeavor. It may not be possible to mention all but the following are singled out for exceptional help.

First of all, I would like to express my profound gratitude towards my Guru Prof. V. Subramanian for his astute guidance and keen interest in this work. His acumen for new ideas always kept the atmosphere of the laboratory exciting. He provided me with necessary maneuverability and freedom to work; albeit keeping a watchful eye on the progress. His deep insight of academics and student-friendly humane approach continues to be a constant source of inspiration in shaping the careers and futures of the students. I would like to take this opportunity to salute him for his pioneering work and relentless effort in the field of biogeochemistry.

I am deeply indebted to Dr. AL. Ramanathan, SES for his help and fruitful suggestions from time to time. He encouraged me and enhanced my understanding and knowledge by clarifying my doubts through the discussions. Interacting with him has added depth to my study.

I would like to record my sincere gratitude towards Prof. J. Behari, Dean, SES for providing excellent research facilities to successfully complete this work.

I am also privileged to have interacted with Dr. A.K. Keshari, IIT Delhi during the course of my work. I gained immense help through his insight into the subject.

I would like to acknowledge the enormous help rendered by Mr. Satendra Kr. Vishwakarma in compiling the whole thesis and for working with full dedication to finish the work within the stipulated time. I am really indebted to him for his kind co-operation during my field work to the Western Ghats region, which made the tough task of collection of samples easy in such a difficult terrain. I must mention that this thesis is the outcome of the unstinted support, I received from him from beginning till the end of my research work.
He always stood behind me through thick and thin. He was indeed a constant source of inspiration and emotional warmth for me throughout.

I wish to express my sincerest thanks to Ms. Avira and Mr. Vergese, CSRD who spent their valuable time with me during remote sensing and GIS analysis.

I owe special thanks to Alagu and Rahul who selflessly stood by me during sample analysis and final stages of work.

I express my sincere thanks and gratitude towards Mr. S.D.S. Rawat, SES for his immense generosity and affection bestowed on me.

I am grateful to all my faculty members, Administrative Officer, Mr. D. L. Sachdeva, Thukral Sir (Ex-AO), Mr. Rajendra, Pant didi and other staff of SES for providing administrative and research facilities without which, completion of this work would have been impossible.

My sincerest thanks to Central Instrumentation Facility (CIF) Staff, Dr. P.D. Gaikwad, Mr. B.D. Sharma and Mr. Venkat for their immense support and prompt help at the time of need.

I extend my heartfelt gratitude towards Uttam Bhaiya and Santosh Bhabi for providing tremendous moral support at crucial moments. The presence of the young ones –Mahir & Mahima have been a constant source of happiness.

I must humbly acknowledge the valuable support, encouragement and affection provided by Shri Dependra Pathak ji at the time of need.

Shri Vinod Shehgal, Shri Bhim Singh, Mr. V.S. Rawat, Mr. Saif Khan, Rana bhaiya, Renu bhabhi and Sharad bhaiya deserve special thanks, as their presence always gave me encouragement at the time of my low moods. They shared my worries, tension and co-operated in dissipating them.

I am thankful to UGC for providing me financial assistance in the form of fellowship to carry out my research work smoothly.

I am grateful to some of my predecessors in the lab, particularly Prof. R. Ramesh, Dr. C. Mahanta, Dr. Sujit Bajpayee and Dr. Anuradha Verma.

I also wish to record deep sense of thankfulness to the lively members of my lab, Dr. N. Madhavan, Dr. Manju Rawat, Dr. Abhay Kumar, Mr. C. Chatterjee, Deep Da, Umesh, Seema, Pawan, Sanjay, Jaya, Vishwamohan, Pankaj and Manoj bhai, for their cheerful co-operation and endless encouragement. I owe thanks to colleagues from other labs – Anshumali, Bala, Ravi Ranjan,
Gurmeet, Pankaj, Praveer, Narendra etc. for their help during my research work.

I am thankful to Virendra and Kamal for their prompt help at the time of need.

I extend my sincere thanks to Prof. B.P. Murthy, Mr. Sheetal Singh, Mr. S.C. Jyotipunj, Girija bhai, Krishnan Sir, Bisht ji for their kind and valuable support and assistance.

I am especially thankful to Ms. Meenakshi for her tremendous moral support at crucial moments.

My special thanks to Dr. Mukesh Kr. Sinha for his continuous encouragement and invaluable support during the crucial stages of my life. He is fulfilled version of "a friend in need is a friend indeed".

It is unvarnished truth that this treatise would have never been materialized in the absence of wonderful and lovable friends, with whom I share my moments of happiness and sorrow. From the core of my heart I would like to thank Rajesh Ravi, Raghvendra, Mallikarjuna ji, A.P. Sir, Pranav, Usha, Manoranjan, Abhimanyu, Nagendra, Sishir, Arun & Satpathy for their constant inspiration and for standing by my side all the time of need and necessity.

Any word of gratefulness to my Maa, Papa, brother Pankaj and sister Doli would perhaps seem to be only a trite. The activism in my life is a manifestation of their able parental guidance, dedication and inspirable life.

Finally, I surrender all my abilities to the almighty, without whose blessings the wisdom of truth and the vision of knowledge would not have been possible to make the saga of my life.

DHIRAJ KUMAR SINGH
