ACKNOWLEDGEMENTS

I am indebted to my guide Dr. M. V. Panse, for his cooperation, freedom offered to me and for the valuable guidance not only in research but also management of this project and finally for critical appraisal of this thesis.

I am thankful to the staff members of the Department of microbiology Dr. V. B. Rale, Dr. B. P. Kapadnis, Dr. R. L. Deopurkar, Dr. B. A. Chopade, Mr. N. B. Kale for their help and constructive criticism.

I thankfully acknowledge the whole-hearted co-operation of Mr. Chavan, Mr. Madan Karote, Mr. Dhumal, Mr. Kashid and Mrs. Purandare, without whose help these studies would have been impossible.

Let me express my sincere thanks to Dr. S. Gangal, Head, Division of Electronics, Department of Physics University of Pune, Dr. P. V. Deshmukh, Dr. P. W. Rahalkar, Dr. S. R. Naik, Dr. R. Nanda, present and former staff members of Hindustan Antibiotic Research and Development and H. A. Library for their immense help, guidance and invaluable suggestions.

I would like to put on record the deep gratitude to my friends, Prashant, Milind, Lalitagauri, Rajashree, Saloni and Mrs. Bhadbhade for cooperation, help and discussion.

I must mention my special thanks to my family members, my parents and especially my mother-in-law Smt. Shobhana, without whose help, it would not have been possible to continue my work.

Last but not the least, I must acknowledge a constant source of my inspiration who always encouraged me and supported me to continue my work, my husband, Dr. Satishchandra and my daughters.
Sneha and Smruti who helped me quite a lot during my work. My brother in law Subodh without him this work would not have seen the light of the day literally.

I also acknowledge the financial support received from The Department of Ocean Development, Government Of India, in the form of the Research Fellowship for these studies.
