ACKNOWLEDGEMENT

"The salute goes to my parents, my family and all those who have suffered so much and waited patiently for this work to be finished, inspite of their suffering, always encouraged and supported me by all means. Its difficult to express my sincere gratitude in simple words."

Bhagwan Das

The author expresses his sincere regards to his Ph.D supervisor Dr. R. Madhubala for providing this opportunity and her constant support, advice and guidance throughout this work.

Author is thankful to Dean, School of Life Sciences, Prof. Rajendra Parasad, for providing all the facilities to carry out this work and also for his encouragement needed, is acknowledged with a sincere gratitude.

The author is grateful to his M.Sc. Dissertation supervisor, Prof. V. Sitaramam (University of Poona, Pune) for teaching the basics of the research and creating an interest in unrelented search for the glorious mysteries of the nature, which always inspired the author in the moments of despair during this work.

Prof. B.C. Tripathi, Prof. Ramesha A. Rao and Prof. Ramesh Bamzei (School of Life Sciences) are acknowledged with regards by author for their valuable suggestions, discussion and the timely help. Author is grateful to all the faculty members of School Of Life Sciences for their encouragement and guidance.

The author is also thankful to Dr. Shakti N. Upadhaya and Dr. S.M. Totey (Senior Scientists V, National Institute of Immunology (NII), New Delhi) for their valuable help.

The author’s parents, Sh. Kishan Mal Gupta and Mrs. Prem Lata Gupta, always have been a source of inspiration for the author. Author has the highest regards for them
and grateful for their intelligent way of parenting and showing the right path for being a good citizen of this beautiful country and world at large. Author always believes in their way of thinking that "Not failure but a low aim is a crime" and "Do your work with full heart without worrying about the result" which has been author's greatest strength at the time of failures during this work. The author express his sincere gratitude, respect and love for his parents.

The author can not forget the cheering up by the sisters Shusheela and Muni and his brothers Ramesh, Umakant with my sister-in-laws and the cute one, Rattan for going out of their way to help out and sharing all the moments of sorrow and happiness and standing with the author always. Author is also thankful of his cousins, Naveen and Puneet who were always there to help out. Author loves them very much, will always miss with fond memories. The another person, Rita, has been like a sister, who always advised and believed in the author and in his integrity to the highest extent, will also be remembered all the time by author.

The author express his sincere thanks to Ravinder, Shiva, Sonia, Ritu Singhal, Tapas, Andrew, Manohar, Darmendara, Banerji-da, Archana Bist, Parnab, Ramesh, Kiran, Aparna, Sobita, Sona, Charu, Sneh, Gayatri, Niti, Pankaj, Agam, Nagendra and all other colleagues of author for their timely and prompt help with chemicals or whatsoever was needed from them.

The valuable help and frank discussion along with encouragement from K. Ravi, T.A. Nagarjun, Narendra Yadav, Suman Dhawan, Rekha Upadhyaya, N.K. Saraswathi, Gurvinder, Shehla and Darmendra (all from NII), Alka (AIIMS), Dr. Pawan Sharma, Dr. Pawan Malhotra, Puran, Amit (ICGEB, New Delhi), Shitiz, Manjari, Mamta, Babu (Central Drug Research Institute (CDRI), Lucknow) is highly appreciated.

With great pleasure, author is also thankful to his hostel mates Parbir, Ravi, Raghu, Ram Singh, Shishir, Shukhu, Parsana, Anand, Narendra, Budhadev, Chander, Francis, Vincent, Ravinder, Sudesh, for sharing good and bad time equally, specially bearing the author with all fluctuating moods from time to time. The author can not forget the co-operation and encouragement received from Murari (IICB, Calcutta), Somu (CNCI, Calcutta) Girish (IISC, Bangalore) Rana Anjum (CCMB, Hyderabad), Bashir (TIFR, Bombay), and Dadke (Abbott, USA).
The author is also thankful to Monika, Samuel, Shiddhu, Preeti, Fatima, Siddhu and all the labmates for their help and also bearing with author in all sorts of moods. Author also acknowledge the valuable assistance from Neeta and Sumer Singh, who are the laboratory assistants of the lab which this work was carried out.

The technical help and co-operation from Mr. Alexander, Mr. Khan, Mr. Rajender, Mr. Sharma and all the technical staff of Central Instrumentation Facility (CIF, JNU) is duly appreciated. Mr. Balvinder Singh technical assistance, Glass Blower Unit of the School is acknowledged for his excellent glass molding job. The author also appreciates the technical help of Mr. Neela Ram (NII, Delhi).

The author is thankful to Prof. R.K. Saxena for allowing to use Flowcytometer. The valuable help and assistance received from Mr. T. A. Nagarjuna in flowcytometry to study the cell cycle, is highly appreciated. The author appreciate Javed, Sobita and Aparna for their help in handling the flowcytometer.

Dr. Tyagi, In-Charge of Animal House and the staff of Animal House Facility, Jawaharlal Nehru University, are here duly acknowledged for their help and co-operation in maintenance of animals.

The author thanks Mr. Saini and Mr. Chinnmay for the photography and drawing work.

Author is thankful to Mr. Saji C.G. (C-TECH, Delhi), for providing the excellent typing service throughout this thesis dissertation. The author also acknowledge the assistance received from Miss Archana Singh in the editing work.

The author is also grateful to Jawaharlal Nehru University and the University Grant Commission (UGC), India, for providing the financial assistance for this work.

Finally author wish to express all his sincere gratitude to all those who are involved directly or indirectly throughout this work and helped the author in every possible manner in submission of this Ph.D thesis.
