ACKNOWLEDGEMENT

It is indeed a dream come true. Now is the time to acknowledge and share my joy and happiness with those I have been associated on a long course of painstaking journey to reach my cherished objectives.

It is my proud privilege to have the opportunity to carry out my research work under the valuable guidance of Dr. Saumen Datta, Department of Structural Biology and Bioinformatics, Indian Institute of Chemical Biology, Kolkata. I would like to express my deepest sense of gratitude for his help and advice during the entire course of the work. No words will be sufficient to express my indebtedness to him for his kindness. His constant guidance and active monitoring kept me alert and enabled me to complete this work.

Thanks are due to Prof. Siddhartha Roy, Director of Indian Institute of Chemical Biology, for granting me the opportunity to carry out my research in this esteemed institute. Thanks are also due to Department of Science and Technology (DST) and Council of Scientific and Industrial Research (CSIR) for providing me with the fellowship and funding. I thank all the faculty members of Department of Biochemistry, University of Calcutta for allowing me to register for Ph.D.

I thank all my seniors, Kamakshi di and Partha da of Bose Institute for their valuable suggestions and guidance that helped me to overcome many hurdles during my research.

I consider myself extremely lucky to have lab mates like Urmisha di, Atanu, Abhishek Rakesh, Pranab and Abhishek Jr for their immense help and co-operation during my research tenure. Their love and respect will be one the sweetest memories of my research time period and I will always cherish it throughout my life.

I would also like to extend my thanks to all the other scientists of Department of Structural Biology and Bioinformatics of Indian Institute of Chemical Biology specially to Dr. Saikat Chakrabarty and Dr. Hemanta Kumar Majumdar for helping me numerous times both professionally and personally.
I am eternally grateful to my friends and co-workers like, Jyotirmoy, Sandip, Biproshekar, Manideep, Sayon, Niladri, Abhishek, Sagar, Shinjinee, Shakri, Trina, Ronendu, Nidhi, Sunny, Sujit, Sumit and Anindyajit for helping me countless times during my research by providing valuable suggestions, lending chemicals or helping with instruments.

Any word is insufficient to express my courteous gratitude for the blessing, cooperation and kind forbearance of my parents, Mr. Pradip Kumar Dey and Mrs. Jyostna Dey during the entire period of my research. Very special thanks to my friend-cum-wife Madhurima for her encouragement, unconditional support and constant stimulation. Thanks to my in-laws, other family members, my friends and colleagues who helped in completion of my thesis.

Supratim Dey
